

## Fellowship Hall Opens For Alcoholic Service

An organization unique in North Carolina was dedicated in Greensboro on Wednesday. It's called Fellowship Hall, and is located on 41 acres of land north of the Gate City, just off U. S. 29.

Fellowship Hall is a non-profit, tax exempt corporation which will offer the problem drinker a program of recovery.

Dedication ceremonies for the half-million dollar structure took place on December 14 at three o'clock in the afternoon, with an outstanding alcohol researcher as the speaker. George Strachan of Canada has done internationally recognized work and writing in the alcoholism field, and is currently a consultant to the Provincial Government of Alberta on Alcohol Problems.

Strachan addressed himself to alcoholism, a treatable illness, and explored practical programs of recovery for the problem drinker.

It is not a hospital or semi-torium, but a center oriented

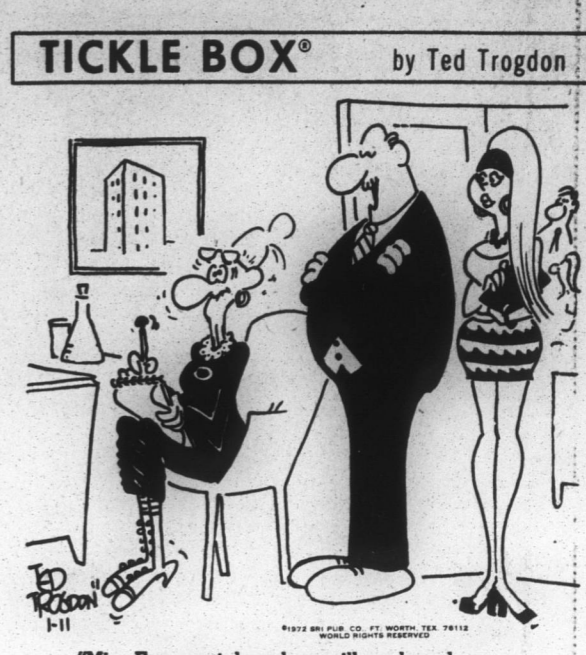

in special cases. Men from any area who are ambulatory, coherent and willing to cooperate with the program may be admitted from 8 A. M. until 6 P. M. seven days a week.

Fellowship Hall was constructed by funds contributed by individuals and foundations. It will operate on a break-even fee basis necessary to survival of the facility. Fellowship Hall is not affiliated, or in competition, with any other facility or

agency, but will cooperate with all. It is also unique in the ways of corporations, in that its board of directors receive no personal expense allowance or salaries.

The public is invited to inspect the new facility, located six and one-half miles north of Greensboro, off U. S. 29 at Hicone Road.

For further information, write: P. O. Box 6928, Summit Station, Greensboro, N. C. 27405. Telephone (919) 621-3381.

"Miss Frosswyst, how long will you have been my private secretary as of noon today?"

Everyone of us should make it a mental duty every year to study some new subject. Brains never develop without study.

## Know Your Social Security

Social security beneficiaries periodically receive notices that require assistance from the social security office. The majority of these contacts can be handled by telephone.

A recent study indicated that many of the beneficiaries in the Chowan area lack means of transportation, and must rely on friends, bus, or taxi for traveling. This cre-

ates a burden on the person, not to mention the added expense for bus or taxi fare. Although there are some matters that cannot be completed by phone, these are very few and a phone call in most instances is sufficient.

Social security beneficiaries are not the only ones who can do their business by using the telephone. Anyone plan-

ning to file for social security benefits should also phone the local Social Security office for assistance.

Favorable reaction from the public to this emphasis on "teleshervice" has been overwhelming. Before your next visit to the Social Security office, call first — you may not need to go.

## RIGHT TO NEGOTIATE, NOT TO STRIKE PUBLIC VS. PRIVATE BARGAINING

There is a vital difference between public and private employment bargaining.

In the private sector employees have the right to strike and employers are empowered to "lock out" as the ultimate terminal points in disputes.

In the public sector, negotiation between government and its employees is and must be different.

Government employees do not have—and in the nature of government employment, should never have—recourse to the strike as a weapon against the government. Nor should government officials have the freedom, or the power to "lock out" government employees in order to bring economic pressure to bear on them.

Governments at each level, in most cases, have been enlightened employers and have kept salaries comparable to the private sector.

Duly elected representative bodies have the sole right and responsibility to raise and appropriate revenues for all government operations including the salaries of government employees. Any process which counteracts or interferes with this democratic system must be rejected.

### Modern William Tell Shoots a New Line

Linemen of the Ohio Power Company use bow and arrows to aid in replacing the conductors on a distribution line, when the right of way is heavily wooded.

When heavy growth of trees and shrubbery preclude modern methods, the lineman climbs a pole above the trees. He shoots an arrow, rigged to a fishing-reel mounted on the bow, over the cross arm on the next pole. The pole is fitted with a pulley arrangement. The fishing line is used to pull a taut, heavier rope which then tows the conductor into place.

"We know you join us in hoping that scientists discover that Mars is not inhabited. This country just can't afford to stretch foreign aid any further.—Harold S. May, The Florence (Ala.) Herald.

Have you ever wondered why it's so much easier to tell somebody else how to do something than it is to do it yourself?

## how much cake should there be in a fruit cake?

Not much!  
In fact, we think just enough to hold the fruit and nuts in place.

You see, our Jane Parker Fruit Cake is over 2/3 fruit and nuts.

Every cake is just bursting with imported and domestic cherries, pineapple from the Far East, citron from the Caribbean, sun-drenched raisins from California and meaty pecans from the South.

AND ONE OTHER THING YOU SHOULD KNOW:  
The 5-lb. cake costs only \$4.59.

That's dollars less than you might expect to pay for such a fine fruit cake.

Is it any wonder Jane Parker Fruit Cake is America's most popular Fruit Cake?  
Is it any wonder it's become such a favorite gift item?

Is Jane Parker Fruit Cake a good reason for shopping A&P?  
It's one of many.
