one underlying concept. People helping reople. A simple thought, yet so important to the success or failure of our dommunity. It has been a key factor in America's great heritage.

Your school officials believe that there are many in our community who would like an opportunity to serve their fellow man in a meaningful way. A small besinning has been made.

A nucleus of 14 persons have agreed to commit their time and talents to help. ing us improve the reading performance of those students who are behind in reading. Each volunteer will receive 35 hours of training in how to tutor children in reading. Then, they will commit a miniroum of two hours per day, two days per week- for the school year to assisting students on a one-to-one basis.

Those persons serving as volunteers in this program include: Mesdames Sally Connelly, Alice Winslow, Marian Lewis, Frances Inglis, Trudy Parker, Shelvie Harris, Artie Nixon, Novela Wilson, Katherine Slade, Evelyn Perry, Sal Nall, Mary Hardin, Linda Shaw and Alice Jones.

Other persons who have been assisting your schools by providing are and music instruction to children in Edenton-Chowan are: Mrs. Edward Bond and Mrs. Marguerite McCall. Dutifully during the past year Mrs. Bond taught art to some of our junior high school children. In addition, Mrs. McCall did much to provide music for the children at Walker School.

In addition, eight persons have also assisted us in our individualized mathematics program. They, like the reading volunteers, are giving their time and talents to your schools. They gave a minimum oi one hour per day to assist teachers. Persons helping in this program are: Mesdames Elaine Gibson, Faye Copeland, Shirley Stephens, Mary Elizabeth Dail, Mary Alice Jordan, Patricia Downum, Margit Spruill and Audrey Ledford.

People helping people. This approach has made our community, state and nation great.

Will you join us in making the Edenton-Chowan Schools greater by sharing your time and talents?

VAUGHAN MEMORIAL Continued from Page 1

enable the hospital to treat emphysema, various other lung diseases, cancer and related illnesses.

The Vaughan Respiratory Care Center will be a movable set-up, perhaps later being established in a fixed loca-

Two persons were recently added to the hospital staff to work in this area. James E. Horton of Suffolk, Va., will be involved solely in respiratory care, assisted by Mrs. Kathleen Chalek, a registered nurse who has been teaching respiratory care in the regional program. Herbert A. Chalek, her husband, is the director of health planning for Region R, encompassing the 10-county Albemarle area.

Surratt stated that establishing a "truly first class" center would be expected to cost from \$10,000 to \$12,000. The initial expenditures are expected to run about \$5,000 with \$2,915 having

already been pledged. A committee headed by Surratt with Dr. Voigt and Dr. J .L. Horton representing the medical and dental staff, W. P. Jones of the board of directors, and Mrs. Hollowell and Mrs. Vaughan has been appointed to set priorities for equipment as monies become available, and insure the continuation of the high Ievel of service to the community.

Surratt pointed out that persons wishing to make contributions to the memorial fund for Vaughan Respiratory Center may contact any member of the committee or send checks directly to Chowan Hospital, Inc., being sure to indicate that the check is for the Vaughan

He remarked that, to his knowledge, there is not another hospital in the area that can offer a comparable service. It will be open to serve the entire 10-

Farm Price List

ATANTA, Ga. — Tobacco prices continued record high during the week ended August 24, the Agricultural Marketing Service of the U.S. Department of Agriculture reports. Egg and honey prices trended steady to higher.

Peanut and Light-type hen prices held steady, while broiler prices generally held steady.

Prices for cattle, hogs, heavy-type hens and cotton declined, while fruit and vegetable prices were mixed.

Flue-cured tobacco sales during the week ending August 24 were marked by the opening, on a limited basis of the Middle Belt of North Carolina and the Old Belt in Virginia and North Carolina. Also, the remaining markets in the Eastern North Carolina Belt opened. The remaining markets in the Old and Middle Belt will open September 11.

The marketing picture in these two belts continued the same pattern as in the other three belts which already had opened. That is, record high prices, improved quality over 1971, very little tobacco going under government loan, and heavy volume of sales.

Prices in Eastern North Carolina this week continued to move up to new record levels. But prices in South Carolina and Border North Carolina and in Georgia and Florida showed decreases.

Water And Land

Chowan County commissioners met Tuesday at the county tax office for a special session at the request of Chairman C. A. Phillips.

Chairman Phillips submitted a written statement intended to be forwarded to state representatives visiting in Chowan County concerning clearing up the "green tide" of the Chowan River. The letter implored the state to take "immediate and appropriate actions against the intolerable condition of the Chowan

It went on to say that all streams and rivers feeding the Albemarle Sound should meet rigid standards in effluent treatment in order to preserve this natural resource.

Commissioner N. J. George advocated a more positive position in dealing with this pollution problem. He stated that teeth should be put into what is resolved by the board. He went on to say that the commissioners should be better informed as to the actual nature of the situation and be prepared to take legal action where such action is appropriate. The letter was approved by the

board. The matter of revaluation of land was discussed but left unfinished pending later action. As farmers, Commissioners C. M. Evans and D. T. Bateman opposed a large increase in valuation on the basis of the present economic status of the farm community. Talks will be sume at a later date.

CLEAN WATER CRY Continued from Page 1

ly disagree to this additional financial burden on the taxpayers of the Town of Edenton if the state continues to allow industrial and municipal polluters to discharge wastes into the Chowan and Roanoke rivers, which empty into the Albemarle Sound.

'We call on the state to set the highest possible standards for the Roanoke and Chowan rivers and the Albemarle Sound for all industries locating in the area from this time forward and to enforce these same standards on present industries in some practical manner.

"Again, we, here in Edonton, are ready to shoulder the burden of protecting our environment, but we want everyone fed out of the same spoon."

CAMP MEETINGS Continued from Page 1

vacation or with time off. Despite the small number, the spirit of the service was not dampened. I quickly discovered that the people of this faith are not governed by ritualism.

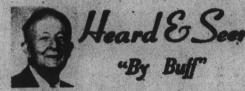

The service ended punctually at noon and with the clang of the dinner bell everyone drifted to the kitchen for lunch. It almost seemed that eating a lot is a must of social etiquette among the people of the county. The festive atmosphere was highlighted by interesting and easy conversation.

The evening service started at 7:30 o'clock and people continued to trickle in for almost a half hour. Eventually, around 200 people or more filled the tabernacle. Several hymns and a prayer marked the beginning of the service, and after the round of announcements,

the guest evangelist mounted the pulpit.
Although Mr. Sigmon's voice was raspy and hoarse from overuse, it didn't effect the spirit with which he delivered the sermon, filled with personal testimony. The reaction to the heartfelt message was a unanimous response to the invitation.

After dismissal was much socializing prior to a special presentation about the Holy Land in the church sanctuary.

Happy Home Camp Meeting is an experience that seems to owe its success to the faith of the people that attend. Theology, to them is only a word, for they don't study their religion; rather they live their faith.

マチー・キャー・マネアサモ本語を正正上外リーという。 4/

The daily newspapers on Monday carried a story to the effect that the Internal Revenue Service plans to get out a new form which will make it easier for taxpayers to figure out their 1972 income report. Maybe it'll be like some of the previous forms which were supposed to make the chore easier, but in fact almost required a Philadelphia lawyer to fill out one properly. Anyway, that time is rapidly approaching.

Much has been read and heard lately about pollution of Chowan River where, in a number of places dead fish by the hundreds have been seen along the banks of the river. Well, Edenton had a taste of it last week. On Friday afternoon many dead fish were floating around right in front of the Court House Green. No wonder I caught very few of the scudders Saturday morning. But then John Taylor opines that maybe pollution did not kill the fish, but rather that the Russians threw overboard the fish they did not want.

Mrs. Helen Parks went to the trouble to bring in a cigar on Monday. The reason? She again became a grandmother. She visited her son and family, Mr. and Mrs. Woody Parks, at New Bern and upon her arrival she was greeted by a new grandson, Robert Preston Parks, born August 26 in Craven County Hospital. Though somewhat surprised, it wasn't anything new for Mrs. Parks, for the newcomer was her 10th grandchild.

Quite an improvement is being made in Edenton's business section. Up at the Byrum Hardware Company and Byrum's Gift Shop a new and attractive front is being constructed as well as changes made in the interior of the two stores. Then scaffolding is in place at the Carpet & Appliance Plaza, so that something evidently will be done to im prove the appearance of that building.

John Taylor before his retirement was an officer of Manufacturers Hanover Trust Company of New York City and he receives a very attractive tabloid newspaper sent out by the bank. John, no doubt, thought working for a bank was a tough job, but in the bank's newspaper "Topics" for August Friend Taylor pointed out the following item entitled "You Think Times Are Tough-Now," which were a list of rules that the 19th Century bank employees were expected to follow. Here 'tis:

1. Office employees will daily sweep the floors, dust the furniture, shelves and

2. Each day fill the lamps, clean the chimneys, trim wicks, wash windows once a week.

3. Each clerk will bring in a bucket of Care Peoples Bank & Trust water and scuttle of coal for the day's

business. 4. Make your pens carefully. Whittle

5. This office will open at 7 A. M. and close at 8 ?. M. daily except on the Sabbath, on which day it will be closed. Each employee is expected to spend the Sabbath attending church.

the mbs to suit your taste.

6. Every employee should lay aside from his pay a goodly sum of his earnings for his benefit during his declining years so that he will not become a burden upon the charity of his bettera.

7. Men employees will be given an evening off each week for courting purposes, or two evenings if they regularly go to church.

8. Any employee who smokes Spanish cigars, uses liquor in any form, gets shaved at a barber shop, or frequents pools or public hells, will give us good reason to suspect his worth, intentions, integrity and honesty.

9. The employee who has performed his labor faithfully and without fault for a period of five years in our service, and who has been thrifty, and is looked upon by his fellow men as a law abiding citizen, will be given an increase of 10 cents per day in his pay, provided a just return in profits from the business permits.

Price Support Set

A national average support level of \$285 per short ton for 1972-crop peanuts has been announced by the U.S. Department of Agriculture. H. O. West, executive with Chowan County ASCS. said this is \$6 per ton more than the preliminary minimum announced Apri and compares with the \$268.50 per

ton support level for the 1971 crop.

The final figure represents 75 per cent of the peanut parity price for August 1, the beginning of the 1972-73

Support levels, by type, per ton of

average quality peanuts are:
Virginia, \$292.27; Runner, \$287.55;
Southeast Spanish, \$280.15; Southwest
Spanish, \$276.11! and Valencia in the southwest area suitable for cleaning and roasting, \$292.27.

You can make some progress if you will give your attention to self-improvement and let other people do the
