

Trading Money

has more lives than a cat

It has been said that cats have nine lives. But our trade dollars beat that score notably. A dollar...paper, silver or pot-metal...generates thousands of dollars in trade volume as it moves in the world of buying and selling.

That's why it's important...and wise...to keep as many of our dollars as possible in our home trading channels as long as possible, to enrich and invigorate our own community and our own lives instead of someone else's.

It Pays to Trade Where You Live
