

Mrs. James Robert Boyd, III

### Boyd-Sienkiewicz Vows

GREENSBORO—In a setting of white poinsettias and candlelight Miss Maria Sienkiewicz and James Robert Boyd, III, were recently united in marriage. Monsignor Hugh A. Dolan and Dr. E. Daryl Kent officiated at the double ring ceremony held in Saint Pius Tenth Catholic Church.

Parents of the couple are Mr. and Mrs. Henry Sienkiewicz, formerly of Edenton, and Mr. and Mrs. J. R. Boyd, Jr. Grandparents of the bride are Mr. and Mrs. J. H. Thigpen of Windsor and Mrs. Maria Sienkiewicz of Sczyin, Poland. A recital of wedding music was presented by Mrs. W. R. McDuffie, organist, of Macon, Ga. and Robert McDuffie, violinist, of Westburg, N.Y., aunt and cousin of the bride.

Miss Beverly Jarvis was soprano soloist of Greensboro. Escorted by her father, the bride wore a gown of satin de'soie fashioned with a high neckline and a bodice with inserts of Alencon lace re-embroidered with seed pearls. The bishop sleeves, skirt and detachable cathedral train were also accented with Alencon lace. Her elbow veil of illusion was attached to a lace cap. She carried a nosegay of white spider chrysanthemums, baby's breath, and stephanotis accented with wine feathers carnations.

Honor attendant was Miss Ann Clancy of Greensboro. Bridesmaids, cousins of the bride, were Miss Nancy Elizabeth Swindell of Hertford and Miss Kathryn Jane McDuffie of Macon, Ga.

Mr. Boyd served as best man for his son. Groomsmen were W. Larry Swindell of New Bern and Cadet William H. Thigpen of the U. S. Air Force Academy in Colorado Springs, Col., cousins of the bride and James R. Merrell and Billy L. Club of Greensboro.

Mistresses of ceremonies were Mrs. John H. Thigpen Jr., of Kinston and Mrs. Marion Swindell of Hertford.

The bride's mother wore a floor length gown of dusty rose chiffon with full length sleeves and a high neckline accented

with a bow. She wore matching accessories. Her purse corsage was a cymbidium orchid.

Mrs. Boyd chose a floor length gown in turquoise with high neckline and long sleeves accented with fur cuffs. Her purse corsage was a cymbidium orchid and she also wore matching accessories.

The bride's parents entertained at a reception at the Ragsdale House on the Guilford College campus following the ceremony.

The bride is a graduate of Paige High School and attended East Carolina University. She was the winner of the N. C. Federation Music Club Scholarship for piano. She is currently attending Guilford College.

The groom is a graduate of Western Guilford High and is now a student at Guilford College.

#### COURTESIES

The rehearsal dinner was given by the groom's parents at their home.

A tea shower was given by Mrs. Grimsley Hobbs, Mrs. Rudolph Gordh and Mrs. Paul Zoph.; a luncheon was hosted by Mrs. William L. Moore and Mrs. Richard Cartland; A wine and cheese party was given at the Sedgefield Country Club by Mr. and Mrs. John McGovern of Southern Pines; the bridesmaids luncheon was given by Mrs. Earl Rives; a wedding breakfast was hosted by Mr. and Mrs. W. R. McDuffie and Mr. and Mrs. Marion Swindell and a miscellaneous shower was given by classmates of the bride at ECU.

## Future trends, appliance use, factors in home improvement

Builders and developers of homes must be pseudo sociologists today to keep pace with the revolution taking place in the American kitchen.

In planning and building or remodeling homes, the builders and developers are constantly monitoring life styles — cooking and eating habits, food preparation and storage.

Recognizing trends — more men are cooking, more women are holding down jobs outside the home, more convenience meals are served — is important in planning a kitchen.

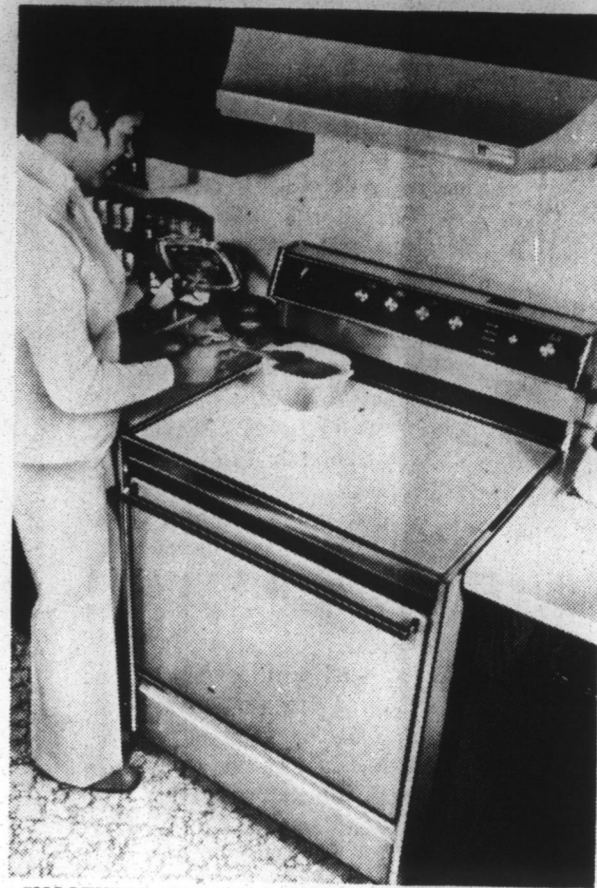

Builders also know that the typical housewife spends from 12 to 24 hours a week in the kitchen doing some of her most creative work — cooking. However, she is looking for short cuts.

Major appliances have helped provide her with some of these short cuts. They have provided equipment using natural and mechanical energy to replace human energy in difficult, dull, repetitive and dirty jobs.

Appliances virtually unheard of 10 short years ago are becoming standard equipment in many new homes today — trash compactors, indoor barbecues, and smoothtop cooking appliances, for example.

Major appliances add to the comfort, pleasure and satisfaction of 60 million homes and over 202 million persons day in and day out. Perhaps that is why builders anxiously await the display of AIKD (American Institute of Kitchen Dealers) award-winning kitchen dealers annually.

In the last three years a number of award-winning kitchen designs featured smoothtop cooking appliances by Corning Glass Works, the originator of

SMOOTHTOP DESIGNS in modern kitchens provide beautiful yet functional and workable room for today's cooks to prepare convenient meals. The smoothtop concept, a popular trend in remodeling, was originated by Corning.

the smoothtop concept. This appeared to support the growing use of smoothtops in large scale building projects — homes, apartment complexes and condominiums. Also the smoothtop concept is used extensively in kitchen remodeling.

One of the designers of an award-winning kitchen said these smoothtop designs were prepared "to excite the eye and the imagination by illustrating the beauty of a functional and

workable room. "The smoothtop helps convey this idea," he said. In watching the trends, the builder/developer is searching for new ways to put some of tomorrow into today's construction. Companies such as Corning are providing appliances that help builders do this — providing a wide range of built-in, slip-in and free-standing ranges to give kitchens a little bit of tomorrow today.

## Catching up with the paper chase!

The need for a miniature office at home is part of the paradox of our times. Automation has increased leisure hours, but actual free time of the executive and the professional is mired in paperwork.

With unfinished business carried home, and complicated tax systems that require everybody to be his own bookkeeper, it is inevitable that the home, once the refuge from the cares of the day, has become a place where a desk and filing cabinet are necessary equipment.

Creating an office area in the home has become a popular idea, too, with working wives and mothers. Full-time mothers can also use desk space to take care of charge accounts, balance the budget and checkbook, or keep track of organizational functions. Moreover, the luxury of an adult sanctum where no one is required to sleep, eat, cook or live becomes increasingly valuable in this overcrowded era.

But since few homes can

afford the luxury of a full-fledged office, even when it moonlights as a guest room, the usual procedure is to pre-empt part of another room for the desk detail. A few square feet in the living room, the bedroom or even the foyer can be made into attractive and efficient space for homework with a few pieces of essential furniture.

A spacious desk, a comfortable chair and good lighting are necessities. Storage space should take into account for future as well as present needs—the most well-designed home office will soon look like the nest of a pack rat if specialized storage is not conceived in advance. System Cado wall units by Royal System, which incorporate desk and storage are perfect for small room or apartments, with the added bonus of improving the room's architectural interest.

"Home office" used to mean company headquarters. Now it is also one of the more pleasant ways of dealing with our paperwork.

## Create contemporary furnishings with blockbusting set of blocks

Modular creations called "blocks" from Landes meet today's concept of building your own furniture.

With a set of four large solid foam blocks, seat-height and about 30 inches square, two smaller blocks, three accessory pillows and a plexiglass tabletop marked in checkerboard pattern, virtually any kind of furnishings can be accomplished.

A full-size queen bed or a pair of twin beds, com-

plete with pillows, can be pulled apart and reassembled into corner grouping, sofa or loveseat, a conversational cluster of lounge chairs and ottoman, a pair of chaises, back-to-back paired lounge chairs, and anything else imagination or need dictate. Upholstery snaps on or off like fitted sheets into the grooves on the blocks. Straps provide secure fastening of pieces. The blocks are also fun to assemble.

## Entertained At Tea At Athol
