

Plans Progress For Homecoming

The halls of College of the Albemarle's main campus will be bustling with activity this week in preparation for Homecoming 1974-75.

This year there are several activities planned for alumni. An informal reception will be held in the Dolphin's Den Friday from 6 to 7:30 P.M. In addition to socializing with old friends and faculty, alumni will be given free tickets at the reception to the basketball game with Ferrum College and the Homecoming Dance which follows. Music for the dance will be provided by Harpo's Gashouse Gang.

At the reception there will be a slide presentation describing College of the Albemarle as it is today. The presentation will feature various curricula offered, building and classrooms. The main campus building will also be open for viewing various homecoming displays.

All alumni are urged to attend.

PLAN ALUMNI ACTIVITIES — Several activities are planned for College of the Albemarle alumni for Homecoming 1974-75. Highlighting scheduled events will be a reception Friday night honoring alumni. Supervising activities are, from left, Lynn Sawyer, Bruce Shepherd and Gloria Crowell, COA staff members.—(COA Photo).

LOUIS L. HOLTZ

MRS. E. EVERETT JORDAN

Lou Holtz Crusade Chairman

RALEIGH—Coach Louis L. Holtz of Raleigh has been named 1975 American Cancer Society Crusade chairman by Mrs. Robert W. Scott, president of the N. C. Division.

In naming Holtz, Mrs. Scott said, "He is a tremendous coach, an able administrator, and an expert in the team

management philosophy so needed in the fight to conquer cancer in our lifetime."

Mrs. B. Everett Jordan of Saxapahaw, was named by Mrs. Scott as Honorary Crusade Chairman. She is the widow of Sen. B. Everett Jordan, 1973-74 Crusade Chairman, whose untimely death from cancer was a great loss to North Carolina and our nation. His efforts made possible the greatest Crusade in the history of the Tar Heel State.

Holtz has proven his ability as a successful athlete and coach. He was head football coach at William and Mary College from June, 1969, to November, 1972, and since that date has been head football coach at N. C. State University. He is married, has four children, and is well known throughout the country as an excellent platform speaker.

In accepting this assignment, Holtz stated, "It is a privilege to work with Mrs. Scott, the board of directors and staff of the N. C. Division, and my team of area vice chairmen will be named soon. Helping to lick cancer in my lifetime will be my greatest challenge."

Food Stamp Amendment Is Proposed By USDA

WASHINGTON, D. C.—Food stamp recipients would pay a standard 30 per cent of net income for their food stamp allotment, effective March 1, under an amendment to food stamp regulations proposed by the U. S. Department of Agriculture (USDA).

The intention to propose this increase was announced in President Ford's budget message of November 26.

The proposal would mean an increased purchase requirement for all households except (1) certain households of eight or more persons, which have been paying 30 per cent of income and (2) those entitled to free food stamps under the law (one and two person households with net monthly income of less than \$20 and all other households with income

less than \$30).

For example, a four person household with a monthly net income of \$150 after allowable deductions (eg. taxes withheld, shelter cost over 30 per cent of income, medical expense over \$10 and child care expense) now pays \$41 for \$150 in food stamps. Under the proposed formula, that household would pay \$45 for its food stamp allotment.

The proposal is in line with the provision of the Food Stamp Act specifying that the amount a household pays for its food stamps should represent a reasonable investment on the part of the household, not to exceed 30 per cent of the household's income. Current purchase requirements vary widely in percentage of income. The proposal is designed to remove the differentials in percentage of income paid for

the food stamp allotment by providing that every household with the same income pays the same purchase requirement.

The proposed amendment was published in the Federal Register of December 6, 1974.

Herald Kitchen

Parmesan cheese and onion. In small mixing bowl beat egg whites until stiff peaks form; fold into potato mixture. Turn into a greased three-quart casserole. Bake at 375 degrees for one hour or until knife inserted in center of puff comes out clean. Serves eight.

Twenty years ago 23 cents out of every dollar of disposable income was spent for food. Today the figure is 16 cents.

Farmers Urged Buy With Caution

RALEIGH—North Carolina farmers were warned today to exercise caution in purchasing pesticides by telephone, particularly weed control products (herbicides).

The warning came from N. C. Commissioner of Agriculture James A. Graham as a result of complaints received by the department's Office of Consumer Services.

"Farmers who purchase herbicides by telephone are at a decided disadvantage," Commissioner Graham said. "They do not have the advantage of personally reviewing the product label nor do they have access to the personal service and instructions of dealing with a licensed dealer location.

"Our calls indicate some producers have bought by phone only to learn later that the product was limited in use and higher in price than other comparable brands. One man even reported that he had been billed for a so-called free sample.

William B. Buffalo, chief of the Pesticide Section of the NCDA Pest Control Division, offered the following precautions to be exercised in the purchase of herbicides, either by telephone or from a farm supply store.

1- Determine active ingredients and the percentage of each. A low percentage of

active ingredients would probably result in a high cost for effective control.

2- Determine use or uses of the product. Buy the product needed for your specific problem.

3- Determine total price, including shipping and handling charges, if any.

4- Write down information given by telephone salesman. This would aid the pesticide section should the question of misrepresentation arise.

5- Check with the NCDA Consumer Services Office (prior to purchase) to be sure product is properly registered with the Environmental Protection Agency and the NCDA.

"The use of pesticides has become an essential tool in the production of agricultural products," Graham concluded, "and their effective use will protect the environment and the financial interest of the producer as well."

EARNs PROMOTION

U. S. Forces, Germany—Ronell M. Valentine, son of Mrs. Virgie K. Valentine, Route 3, Edenton, N.C., was promoted to Army private first class while serving as a cannoneer in Battery B, 1st Battalion, 2nd Field Artillery, 8th Infantry Division in Baumholder, Germany.
