Working people like Bob Dunnagan.

Anyone meeting Bob for the first time would like him immediately. He is a warm, sincere person who has a genuine interest in people.

Workers like Bob because he is a working man himself and understands their problems. For over 25 years he served North Carolina workers as a safety inspector in the field and as Deputy Commissioner of Labor under the late W.C. "Billy" Creel. Together Billy and Bob developed the best safety program in the nation.

That's why workers like Bob.
