

## Mike Brown State Wrestling Champ

By Jerry LaVole  
The Aces were well represented last weekend at the State Wrestling Tournament in Winston-Salem. John A. Holmes High School definitely was one of the small schools in the field of over 100 schools. Yet the Aces placed a three way tie for 10th place in the state. However, that was not the biggest story. Mike Brown, senior at Holmes High, placed first in the state in the 188-pound class. Brown ended his last season for the Aces with a 20-0 record. He was 4-0 at the state tournament, with a pin in the first round (1:07, second), and three decision wins, (11-3), (7-2), and the 7-5 championship win Saturday night.

In addition to Brown the Aces had two other wrestlers at the tournament. Kenneth Bond was defeated twice in the 148

pounds class. He was defeated in the first round by the wrestler who went on to win the state title in that class. He was defeated in the consolation match by only one point.

In the 198-pound weight, John Norris was 2-2 as he won 10-8 in the first round and won a consolation match. (To be third in the state, the wrestler that defeated you must make it to the finals. The three wrestlers he defeated then wrestle for the right to meet the wrestler who has gone through the same process after being defeated by the other finalist). Norris lost in the quarter-finals and in the consolations.

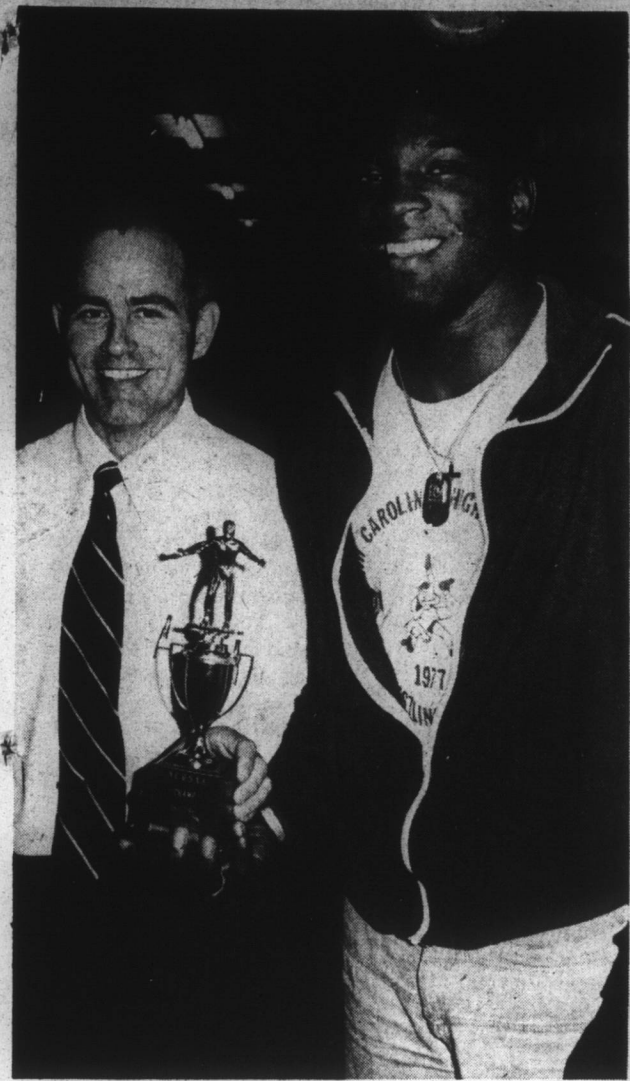

Coach Gil Burroughs, who wrestled while a high school student in Norfolk, Va., came to Edenton in 1967. There was not a wrestling team at Holmes and in 1968 he started a

team. At that time there was not wrestling in our conference but since conference competition began, the Aces have had a player qualify for state competition each year. In addition to his very able classroom teaching, he started coaching the boys tennis team before the wrestling tournaments were all completed.

Congratulations to Mike Brown, Coach Burroughs, and to all the Holmes High School wrestling team members for a successful year.

ON SCHEDULE—Carowinds General Manager Michael Bartlett, left, Al Weber, rides operation manager, and Don Martin, construction manager, review a model of the park's newest ride. Scheduled to be completed sometime in May, the ride features a roller coaster train that will be catapulted through a 360-degree vertical loop forward and then backward.
