

Society News From Merry Hill Section

By Ethel B. Winborne
Miss Marilyn Barfield is spending this week in Florida with a friend.

Mr. and Mrs. William White last week. He was a former pastor here for several years.

Edmund Pruden is spending a weeks vacation in Florida, with some friends from East Carolina University in Greenville.

Love, to live here now, since the death of their father and mother, Mr. and Mrs. Sam Love.

Mrs. Elizabeth Phelps and Mrs. Ella Evans left Thursday morning with a few others from Aulander and Hertford County on a tour of Las Vegas, Nevada to be gone about two weeks. They were to fly by plane from Norfolk.

Miss Ellen Pruden of Methodist College of Fayetteville spent the weekend here with her parents, Mr. and Mrs. E. J. Pruden, Sr.

Miss Velma Love of Wingate has moved here in a new house by her brother, Jimmie Love and Mrs.

Mr. and Mrs. Charlie Keeter and Eddie of Hampton spent the Easter holidays at their home here, with Mrs. Cliff Keeter.

Mr. and Mrs. Dewey Crabtree of Raleigh were the guests of Sammie and Ruth Adams from Monday thru Wednesday last week.

Mrs. Garatha Phelps returned from Chowan Hospital at Edenton last week after several weeks as a patient there and is spending some time with her son, Charlie Bill Phelps, Mrs. Phelps, Charlene and Billy, while she is recuperating from an operation.

Move Tomatoes Before Blooms

When selecting your tomato plants this spring, you might be better off passing up those already blooming or bearing small fruit and choose smaller, younger plants. Many gardeners buy blooming plants thinking

they will get tomatoes quicker, but this isn't always the case, according to North Carolina State University extension horticulturists. Developing fruit puts a nutrient drain on plants. If this is going on at the time the plant is experiencing transplant shock, slow growth can be expected. Generally, it is better to transplant before blooms form. An alternative is to grow the plant in a large container that would allow good root development. Putting the plant into the garden row with a good root system will reduce the transplant shock.
