Seabrook Reorganizes Edenton Plant

Seabrook Bleaching Corporation announced the reorganization of its Edenton plant effective September 15. The reorganizations created two independent departments within the plant, as a result two new superintendent positions were created.

The Peanut Market News

Southeastern Section — Trading for peanuts grown in the Southeast was moderate. Demand was moderate, and prices were barely steady. Trading was slowed during the week as dealers waited for the effects of Hurricane Frederic. The storm generally bypassed most peanut producing areas except for light acreage in Western Alabama. The crop was in good condition in the Southeast. Peak harvest was expected this week and next week in Georgia. Digging thus far indicated good yields. Prices paid per pound for Southeastern grown shelled runner type peanuts, new crop, sold on an FOB shipping point basis for September shipment unless otherwise stated were for Medium 34 1/4 cents, October to December delivery 34 1/4, October to March 34 1/4; Number One September to December 32 1/2, October to January 32 1/2, January to June 32 3/4; U. S. Splits September to October 34 1/4.

Dickens Takes Bride

Mr. Dickens was his son's best man. Ushers were Lynn Martin Dickens and Billy Joe Dickens, brothers of the groom and both of Tyner. Mrs. Jack Boykin of Wilson was organist. Soloists were Miss Debra Beaman of Pilot Mountain, and Miss Loren Watkins of Raleigh, both cousins of the bride.

Following the ceremony the bride's parents entertained at a reception in the Fellowship Hall. Guests were greeted by Mrs. and Mrs. W. C. Hinnant. The main serving table was covered with an off white cloth with a white lace overlay and held arrangements of mixed flowers flanked by yellow candles in silver candelabras.

Assisting in serving were Mrs. Jarvis P. Beaman. A bridesmaids luncheon was given on Saturday by aunts of the bride, Mrs. Cecil E. Church, Mrs. Charles H. Morris, Mrs. Franklin G. Vaughn and Mrs. W. C. Hinnant in the Rib Room, Heart of Wilson. The bride chose this occasion to present gifts to her attendants.

The couple will reside on Route 1, Tyner.

Bart Wood Heating Systems: Better Quality. Less Money.

Saves you up to 70% on your heating bills.

8200 Model heats up to 2,500 square feet. . . extracts up to 80% of available energy from the wood.

Doors are removable, and a clip-on screen and variable speed blower control are included at no extra cost.

Compare Bart with any other woodstove or heating system available. You'll find Bart wood heating systems offer you better quality, better features. . . and a lower price.

Our unique automated manufacturing process, with its stringent quality control, insures a consistently superior finished product at a lower cost.

We use only the best boilerplate steel in our double wall construction. . . and our handsome doors won't warp the way those on some other woodstoves do.

All electrical components are the finest available. Our patented 650 CFM blower is the only fan on the market specifically designed for use in a wood heating system, and can withstand temperatures over 800° F. What's more, it delivers twice as much hot air as any wood heater available.

Bart heating systems are attractive and easily installed in existing fireplaces. They're also available in free standing models.
