## Bandon Notebooks: Mother's Day

By Maggie B.

Hi, Neighbors! Sunday is "Mother's Day" - a day set aside to honor All Mothers! Have you ever stopped to think that most of all the beautiful things in life come in twos, threes or more? There are many lovely flowers, stars, sunsets, rivers, trees, brothers, sisters, and so on - but - God has blessed us with only ONE Mother! Many, many times as I was growing up, my daddy would surround himself with all the children and we would all sing that old, familiar song: M - is for the million things she gave me; O - is only that she's growing old; T - is for the tears she shed to save me; H - is for her heart for purest gold; E - is for her eyes with lovelight shining; R - is right and right she'll always be - but them all together they spell MOTHER, the greatest word in all this world to me!!

Share this with me: There is an enduring tenderness in the love of mother for her children that tenderness in the love of a fections of the heart! It is neither to be chilled by selfishness, nor daunted by danger, nor weakened by worthlessness, nor stifled by ingratitude. She will sacrifice every comfort for their convenience; she will surrender every pleasure for their enjoyment; she will glory in their fame, and exult in their prosperity - and if misfortune overtakes them, they will be the dearer to her from misfortune; and if disgrace settle upon their names, she will still love and cherish them in spite of disgrace; and if all of the world beside

## Views on Dental Health

By Richard N. Hines, Jr. D.D.S., F.A.G.D. and Valerie A. Robison, D.D.S.

**Why Dental Insurance?**

Consider these statistics: Of children over fifteen, 75 per cent have some form of gum disease and an average of 11 cavities. By middle age, 2 out of 3 people will have serious gum problems and be well on the way to losing all of their teeth.

Why should such a technologically advanced country as ours be in such a poor state of dental health? The answer is neglect! Few Americans see a dentist as often as they should and many have NEVER seen one. There are many reasons for this and one of them is money. Now something is being done about it.

While most Americans have some kind of medical insurance, dental insurance has lagged far behind, but now dental coverage is growing by leaps and bounds. Today, some 65-million (3 out of every 10 Americans) are covered by some form of dental insurance and estimates are that coverage could increase to 95-million by 1985. Labor unions have been striving for wider dental protection and are responsible for much of this increase. In these times of inflation, the average American can use all the help he can get.

A public service with the aim of promoting a better dental health environment. From the office of: RICHARD N. HINES, JR., D.D.S., F.A.G.D. and VALERIE A. ROBISON, D.D.S., 437 South Broad Street, Edenton. Phone: 482-2776.
