

Mallinson's To Speak Sunday

Rev. and Mrs. H.E. Mallinson of First Presbyterian Church will present a dialogue on their trip around the world Sunday at the 11 A.M. service. They will be telling of some of the people they met along the way that were God's messengers to them.

At the Sunday School hour 9:45 A.M. the Mallinsons will be discussing the church around the world as we saw it. This Sunday the discussion will be on India. The class is open for visitors. It will be held in the kitchen.

For five Sundays this will continue with discussion and slides on the churches of Australia, Korea, Japan, and Republic of China (Formosa).

New Bibles are presently being secured as memorials and will be placed in the pews.

The Youth of the church will be attending the Albemarle Presbytery Youth Rally in Kinston Sunday afternoon at 2 o'clock.

FACTS & FIGURES

Chlorofluorocarbons are chemical compounds that contribute more than many people realize to protecting our economy and our jobs. Approximately \$500 million worth of chlorofluorocarbons, also known as CFCs, are sold annually in the U.S. More than 780,000 jobs are related to CFC use and approximately 260,000 domestic businesses use the chemicals.

The installed value of products which use chlorofluorocarbons in the United States is more than \$135 billion.

Weekly Health Tip

Mike Brewer

Citrus Fruits

Citrus fruits are well known as great sources of vitamin C, but when eating them, don't eat the skins. Oranges, lemons, grapefruit, etc. are sprayed with pesticides and chemicals on the trees. It is difficult to remove these chemicals even with thorough washing. So, enjoy the fruit and juice, but avoid the peels.
