

Miss Griffin, Mr. Kesler Exchange Wedding Vows

Miss Patricia Ann Griffin became the bride of Ralph Edward Kesler, Jr., January 24 at 11 o'clock in an impressive single ring ceremony in Christ Episcopal Chapel in Raleigh. Rev. Dan Sapp officiated.

Dr. David Lynch of Meredith College presented a program of nuptial music at the organ.

To mark the occasion, the chapel was decorated with Baker's fern, jade, lemon leaf and eucalyptus interspersed with stephanotis and gypsophila.

The groom is the son of the late Mr. and Mrs. Kesler, Sr. of Salisbury.

Given in marriage by her father, the bride is the daughter of Mr. and Mrs. Joseph Carroll Griffin, Sr.,

of Farmville.

She wore a formal gown of ivory imported chiffon featuring a bodice of Alencon lace extending to a low back bordered in lace and accepted by tiny lace buttons. The full bishop sleeves were cuffed in lace and adorned with bridal buttons. Her rolled brimmed hat was trimmed with antique and Alencon lace with gathered layers of bridal illusion. She carried a bouquet of red roses, stephanotis, gypsophila and greenery.

were honorary bridesmaids. Zack Bacon, Jr., of Raleigh, was bestman. Groomsman were Carroll Griffin of Raleigh, brother of the bride, and Wallace Morgan of Raleigh.

For her daughter's wedding, Mrs. Griffin chose a formal gown of blue qiana and chiffon highlighted at the shoulder with a corsage of red roses.

A PERFECT FIT — Prince Charming (Michael Reeve) finds that the glass slipper is a perfect fit for Cinderella (Becky Gilbert) in Edenton Little Theater's comic version of the classic fairy tale. Rehearsals are currently underway for the February 12-13 staging at the Holmes High School auditorium. Curtain time will be 7:30 P.M. for the one-act production. It should be a delight for youngsters and a laugh for adults.

Little Theatre To Present "Cinderella"

Cinderella is coming! Cinderella is coming! Excitement abounds as Edenton Little Theater prepares for their upcoming presentation of Cinderella on February 12-13.

Cries of "Here comes the

Prince!" echo through the auditorium of J. A. Holmes High School as the players polish their performance.

Much of the excitement is due to the unusual slant of the story. This comic version features audience involvement and lots of surprises from the Fairy Godmother's (Cindy Devine) magic. The length of the piece—slightly less than one hour makes it ideal for even the smallest child, and show time has been moved up to 7:30 to accommodate early bedtimes. But don't make the mistake of assuming this play is just for kids!

The hilarious interplay of the stepmother (Betty Bissette) and the three sisters (Matilda, Griselda, and Frump-Debby

Hallyburton, Anne Dale, and Gail Singh) promises a good time for all.

Of course Cinderella (Becky Gilbert) and Prince Charming (Michael Reeve) manage to make everything turn out alright in the end with the aid of the Prime Minister (Mike Brewer) and the Duke (Bobby Dail), but not before everyone has a rollicking good time!

Director Terry Wackelin is emphasizing the "learning" aspect of the production and invites anyone interested in gaining experience with sets, costumes, make-up, publicity, backstage help, etc, to contact her.

This is an excellent opportunity for anyone wishing to become involved with little theater to join in!

THE ABCESSSED TOOTH

When an abcess hits you, you'll know it! The pain is severe and constant, with the side of the face swelling in a few days. This is an emergency.

The abcess normally starts with a cavity which is left untreated. The bacteria begin their treacherous work by destroying the outer case of enamel, then the inner (more sensitive) part of the tooth called the dentin. Eventually, the cavity will invade the innermost part of the tooth, called the pulp where the nerves and blood vessels are. Now, you've got trouble and you'll know by the pain. It is caused by the swelling of the blood vessels against the nerves since the pulp is surrounded by rigid walls.

The pulp loses the battle and slowly dies, leaving the tooth full of decom-

posed tissue and swarming with germs. When the germs reach the tip they will set about making an abcess. Then they will proceed to gradually destroy the surrounding jawbone and tissue.

A filling will not help a root abcess. The decision now (after the infection is treated) is whether to save the tooth by root canal therapy or have it extracted. This pain and possible tooth loss can be prevented by having cavities filled early.
