HI, NEIGHBORS! Sometimes it's hard to be a human being - it's a big job! We are created in the image of God and He expects us to live up to that image. It's a hard road to travel, and at times, we fail so completely. We forget how great our God is and try to go it alone but it seems that in our moment of greatest need, we find the moment of greatest fulfillment. We come to the end of our power and find the beginning of God's power -- it's GREATNESS has no end! Our Lord took the sins of

dead and buried. If that had been it - the perfect example He set for us to follow would have been in vain. All the agony and suffering He endured for our sake would have been for naught. But, came the resurrection! Our Lord Jesus conquered death and the grave and LIVES TODAY, seated at the right hand of God, the Father. HE LIVES! How marvelous that is! And, His Holy Spirit lives within our hearts - so, when problems arise, talk it over with God. He'll lead you in the right way. He is the greatest friend we have. Share this verse by Helen Steiner Rice with me:

the world upon His shoulders, was crucified, "You're worried and troubled about everything, Wondering and fearing what tomorrow will bring --

You long to tell someone for you feel so alone, But your friends are all burdened with cares of their own --There is only one place and only one friend Who is never too busy and you can always depend That He will be waiting with arms open wide To hear all your troubles that you came to confide --For the Heavenly Father will always be there When you seek Him and find Him at the Altar of Prayer."

Brewer Tonsils

For many years it was fashionable to assume that diseased tonsils in children were at the root of the cold problem. However, tonsils have the function of channelling disease away from the system, not infecting it. Studies have noted that more people who had kept their tonsils were able to avoid colds than those who
