

Student Art Now On Display

On May 21 a five-week exhibit of the student work of private art teacher Carol Sick opened at the Edenton Public Library. The show contains approximately 350 pieces of art completed since June 1980 by students of Mrs. Sick ranging from age six through seventeen. COTTON GROWERS TALK ABOUT VIKING SHIP® CALCIUM NITRATE

"I like what fast-acting nitrate nitrogen and calcium does for my cotton"

Neely H. Robley
Denmark, Tennessee

The results expressed by this testimonial reflect the grower's analysis of the effectiveness of Calcium Nitrate. Similar use by others may produce different results.

"We farm 1800 acres of cotton and used Calcium Nitrate for the first time in the Spring of 1977. Calcium Nitrate was applied as a sidedress at 150 lbs./Ac. We needed a fast-acting nitrogen and also liked the calcium CN provides. We noticed that there was reduced fruit shedding on cotton that had CN, and it helped the bolls to size better. I also like the way CN helps me control the crop's nitrogen level."
