The bride was given in marriage by her brother, Robert E. McCue. She wore a traditional Victorian lace gown which encircled the empire waist. The long sleeves fell to points over her hands and the encircled skirt formed a cathedral train accented with lace appliques. Her fingertip veil of Bridal illusion was arranged from a tiaro of peralized Victorian lace that matached her gown. She carried a bouquet of pink silk roses showered with

TV AND YOUR EYES

Your favorite TV show is on the screen, but why is the picture out of focus? Maybe it's not the picture. Maybe it's your eyes. Watching TV for long periods of time can cause eye fatigue. But TV watching is not harmful to the

To give your eyes a break when watching TV, you should be sitting at least six feet away from the screen. One guide is to sit at a distance that is five times the width of the picture. And don't sit in the dark. It's not good for your eyes. There should be light in the room. but not bright enough to wash out the TV picture. Move the light or the TV so that it doesn't cause a reflection or

glare in the TV screen.

The set should be in perfect focus. If you've done all you can to get a clear picture but still have trouble seeing it well, maybe it's time for an eye examination.

Corrective glasses or conprescription will put your eyes where you want them to be: back in the picture-clear and sharp.

Overcoming Denture "Gagging"

The most common problem with new dentures is gagging. The presence of this foreign body (the denture) causes an increased flow of saliva which may cause a person to gag. A sugar-free lozenge sucked continuously for the first few days will increase the rate of swallowing and thus get rid of the extra saliva. Within a few days, the body will gradually adjust to the new den-
