PRESENTS AWARD — Marginette Lassiter, left, last year's Clubwoman of the Year, presents the award to this year's recipient, Carolyn Ricks, as BPW Club President Hettie Wallace looks on.

DID YOU KNOW THAT...

North Carolina has one of the highest female labor force participation rates in the nation?

80 per cent of North Carolina working women are now in the low paying sectors of the labor force, as compared to 45 per cent of men?

In 1955, women earned 64 cents for every \$1.00 earned by a man - compared with 59 cents for each \$1.00 today?

In 1976, over 15 per cent of all North Carolina families were headed by a female, and by year 2000 this may well jump to 25 per cent?

Female-headed families are among the lowest median incomes of all family types?

Non-family households (persons living alone or with unrelated individuals) grew by more than 200 per cent between 1960 and 1980?

Over a third of all households may be non-family by the year 2000?

Only 7 per cent of the total US population live in the "model" nuclear family of 2 parents and 2 children?
