DEAF Club Holds Raffle

by Stephen Atstupenas-Sec. and Danny Hogan-Reporter
The John A. Holmes High School - Design, Engineering, Architecture and Fabrication Club (DEAF) sponsored a raffle for an outdoor barbecue cooker. The drawing was held November 19, and Mrs. Barbara Rinehart of 100 West Gale Street was the lucky winner!

The purpose of the DEAF club is to promote high standards in trade ethics, workmanship, scholarship, and safety.

The club entered a booth at the County Fair and planted shrubbery around the Vocational building for their beautification project. The future plans of the DEAF club are to provide scholarships to two deserving students and to ask industries in the area for live projects so that students may gain valuable experience.

A special thanks to Peoples' Bank for providing raffle tickets and a place to display the cooker; also, to Atlantic Forest for providing the wood

Influenza Alert

It's the "flu" season again, and residents of the Pasquotank-Perquimans-Camden-Chowan Health District are once more being urged to take this often epidemic disease seriously, according to Howard B. Campbell, district health director.

The influenza alert is particularly important for older people and those who are vulnerable because of lung or heart diseases or diabetes. Such people should check with their physicians about being immunized by vaccines.

Campbell placed emphasis on influenza's infectiousness and suggested common-sense precautions to prevent the illness from spreading. Needles exposure in large groups of people should be avoided, he said. Sneezes and coughs should be covered with a hankerchief or tissue. If flu strikes a family member those tending the patient should be sure to wash their hands, and tissues should be disposed of in a paper bag that is frequently replaced. Serving food and beverages in paper and plastic disposable plates, cups and bowls, used only once by one person and then discarded, can help reduce the risks of cross-infection.

When flu viruses get into the noses and mouths of susceptible persons, infection may occur, producing such symptoms as fever, chills, headache, dry cough, and aches in the back, legs and arms.

Bed rest for the patient is important in the treatment of flu, Campbell pointed out, along with keeping warm and drinking plenty of fluids. But if the symptoms persist and the illness is severe, consult your family physician, he advised.

"Influenza is catching", warned Campbell, "so be sure to take all steps necessary to protect family members and any others who come into contact with the patient."
