Block Sets 1986 Wheat Marketing Quota

WASHINGTON — Secretary of Agriculture John R. Block last week announced a 1986 national wheat marketing quota of 1,955 million bushels and a national acreage allotment of 54 million acres.

"All states will be considered commercial wheat-producing areas for the 1986-crop of wheat," Secretary Block said. "A producer referendum will be conducted July 19 - 26, 1985 to determine whether farmers favor or oppose marketing quotas for the 1986 wheat crop."

The announcement on the 1986 quota and acreage allotment is required under permanent legislation — the Agricultural Adjustment Act of 1938, as amended. The 1938 Act has been suspended through the 1985 wheat crop by the Agriculture and Food Act of 1981.

"The 1985 Farm Bill debate could be prolonged late into calendar year 1985," Secretary Block said. "For this reason it is impor-

tant that wheat farmers know as early as possible the provisions of the 1986 wheat marketing quota program that could be in effect."

To become effective, marketing quotas must be approved by two-thirds or more of the eligible producers voting in a referendum held not later than Aug. 1, 1985. Eligible producers are those who have an interest in a farm with an established acreage allotment that will be derived from wheat allotment history that has been suspended since the 1977 crop.

If marketing quotas are approved, basic program provisions would include: (1) mandatory acreage controls with stiff penalties for over-planting of the allotment; (2) a two-tiered price support system; (3) a domestic and export certificate program financed by processors and exporters, and (4) under certain conditions a mandatory unpaid land diversion program.

The U.S. Department of

Agriculture is required to announce a wheat marketing quota whenever it is determined, based on a formula in the 1938 Act, that, in the absence of quotas, the supply of wheat would be in excess. Secretary Block said USDA has made such a determination for the 1986 crop.

However, if marketing quotas are rejected by more than one-third of the eligible producers voting in a referendum, basic program provisions would include: (1) no acreage controls or penalties for overplanting; (2) a price support loan program set at 50 percent of parity available only to farmers planting within their acreage allotment; (3) no domestic or export certificate program; and (4) no land diversion authority.

Secretary Block said full implementation of the 1986 Wheat Marketing Quota Program will re-

quire further determination. Later, a notice of proposed determinations will be published in the Federal Register asking for public comment on the various determinations yet to be made.

Card Of Thanks
The family of the late Hattie Drew Perry, would like to express sincere thanks to those for comfort and support during the loss of our love one especially to Dr. Perry also Dr. Hardin and the nursing staff of Chowan Hospital and may God bless each and everyone of you in a special way.
