FmHA Announces Local Funding

FmHA County Supervisor Melvin Howell has announced that funds are now available to guarantee loans of Chowan and Perquimans County residents and businesses for use in creating new business or expanding existing enterprises.

"Farmers Home Administration is interested in the economic health of our community and we would welcome inquiries about this program," Howell said. "Our business and industry program was created primarily to provide jobs in smaller towns and rural communities. Loan funds are provided by a local commercial bank or savings and loan association and the loan is guaranteed by

Farmers Home Administration," he added.

Howell said that, "There are probably many people in the community who are not familiar with the opportunities available under the B & I program, especially the fact that we can make loans to a variety of different-sized businesses, including family enterprises. We are especially interested in anything we can do to help improve job opportunities for farmers who are trying to find new occupations."

Information about this program can be obtained from the FmHA office located at the Albemarle Commission Building, Hertford, telephone number 426-5733.

Millpond Plans

Program On Frogs

By FLOYD K. WILLIAMS

On May 30, at 7 p.m., a program entitled "Feeling Froggy" will be presented at Merchants Millpond State Park, Route 1, Gatesville. Frogs and toads will be the subject of the program, which will begin with a lecture and some slides of the various species to be found in the Millpond.

After the conclusion of the inside program, we will go out along the shores of the Millpond to see if we can find some of these elusive but noisy creatures. We should be able to hear several species singing their mating songs, which are often mistaken for other animal noises.

This program will begin at the interpretive building near the canoe rental area. Participants should bring along a flashlight and be sure to wear shoes that will be comfortable for walking. You may also want to bring along some insect repellent.

Anyone desiring additional information may call the park office, (919) 357-1191, weekdays between 8:30 a.m. and 9 a.m.
