

This is National Physician Appreciation Week.

# Thank You Doctor.

Since 1995, we've added 53 physicians to our medical staff. Today, there are almost 100 doctors representing 34 medical specialties at Albemarle Hospital.

From brain surgery and hip replacement to family-centered primary care...

From the diagnosis and treatment of lung disorders and problems of the urinary system to emergency care...

From cancer care and advanced cardiology to a complete line of women's services and more...

Our doctors have created a remarkable regional medical resource for the people of the Albemarle.

We appreciate your leadership and dedication.
