Local Frank Speight showed a car that his father bought from Albemarle Motors on January 18 or 19, 1941. Frank says that he sold the car once, but "bought it back again the same day!"

Bill Manke's 1952 Dodge pick-up truck, used in the TV series FBI Files, Mississippi Burning, in 1988, was absent

from Saturday's show because it was getting repainted its original red.

Ed Noble also owns a car used in a movie. His 1949 DeSoto Sheriff's car was used in the movie, "Duce Coupe". This vehicle is presently for sale.

Several people in the Freshwater Chapter drive their antique vehicles. Explains Ed Noble, "The real love (of these cars) shows when you get people who take these cars and drive them every day."

Parade

These hospitals, consisting of 19 orthopedic units and three burn centers provide free, expert medical care to children. Sudan Temple, with membership territory in eastern North Carolina, currently sponsors about 425 children in Shriners Hospitals.

Since the first Shriners Hospital opened in 1922, more than \$4.1 billion has been spent on special care services for more than 550,000 children and on construction of the hospitals.

As Shriners celebrate the 77th anniversary of what has been called "The World's Greatest Philanthropy," they want everyone to be aware that Shriners Hospitals are eager to provide free, expert medical care to children in need.

Shriners Hospitals have a threefold purpose: (1) Treatment - to save children's lives and restore their bodies to the highest level of usefulness; (2) Research - to conduct research into orthopedic and burn care; (3) Education - to train physicians and other medical professionals in the treatment of orthopedic disabilities and burn injuries.

Relay

ies in cancer research. I'm very grateful to all the people in Edenton who do so much for the "Walk for Life," she said.

Miller said that the greatest weapon anyone can have in the fight against cancer is hope.

"The greatest enemy to fight is not cancer, but despair. Even though my body is full of cancer, it hasn't touched my spirit or corroded my faith. It can't kill friendship, or shut out wonderful memories and the fun we've had together."

Her advice to those who are also fighting the good fight against the disease is simple but profound: "Refuse to let cancer touch your spirit, and trust in God's love."

The 1999 Relay for Life held at John A. Holmes High School in Edenton will be a joint effort between Chowan and Perquimans counties. An

ambitious goal of \$100,000 has been set for those volunteering their time to participate in the event.

Serving as co-chairs for the event are Victor Alexander and Dawn Hare.

The Survivor Lap for this year's Relay kicks off the event Friday evening, May 21, at 6 p.m. Then, at 9 p.m., the Luminary Ceremony will take place. Luminaries can be purchased in memory of, or to honor someone with cancer. These luminaries, placed to line the track with light, are lit and the names of those honored are read. The closing ceremony for the Relay will begin at 2:30 p.m. on Saturday, May 22. Everyone will be asked to walk the last lap, and awards will be presented.

Anyone desiring more information about the joint Chowan-Perquimans Relay for Life can contact Brenda Newbern (426-7373), Claudia Bunch (426-5854), or Donna Peele (at Ann & Andy's in Edenton, 482-4777).

cate hooking up with existing pipelines. This week, the Council is expected to decide between the two companies.

Councilman Dixon also expressed concern on behalf of local residents about a loitering problem taking place in the parking lot on East Eden Street. Dixon noted that while police have done an excellent job of controlling the area, they cannot be there all the time. The Town felt that since installing lights there would keep nearby residents awake at night, that was not an acceptable option.

It was therefore decided to close the parking lot after business hours and to have prominently posted signs to that effect placed at the parking lot. Further measures will be considered at a later date, if necessary.

Wellness Screenings

Staff from Chowan Hospital's Wellness Van will conduct wellness screenings in April and May. The screenings will test for blood pressure, cholesterol level and diabetes. In some locations, the staff tests for carbon monoxide and measures grip strength. For more information, call Chowan Hospital's Wellness Department at 482-6242.

Saturday, May 1
May Play Day, Rocky Hock, all day.

Wednesday, May 5
Health Fair at Recreation Department, Edenton, 9 am-3 pm.

Thursday, May 6
"Aging with Gusto," 9 am-12:30 pm.

Saturday, May 8
James "Cattfish" Hunter Day at Perquimans County High School, Hertford, all day.

Prostate Health

Monday, May 3, 7:00 pm, at Chowan Hospital Classroom B, Dr. Cris Reynolds, a urologist and member of the Chowan Hospital medical staff and Edenton Urology Clinic, will discuss prostate health topics including impotence, bladder control, kidney stones and cancer.

CHOWAN HOSPITAL
University Health Systems of Eastern Carolina

Chowan Hospital is part of University Health Systems of Eastern Carolina, which includes Pitt County Memorial Hospital, other community hospitals, physician practices, home health and other health services. University Health Systems is affiliated with East Carolina University School of Medicine.

UDO

Continued From Page 1-A

3/4 of those times, the meetings started at 5:30 and went until 9:00 p.m."

Most time was reportedly spent on updating the Use Table, which was made less generalized, and more specific. "An important proponent of the Use Table has to do with commercial development" she explained.

Preston Sisk said that he wanted to see Edenton grow, but "we have to be careful to preserve that (historical aspect)" also. The updated UDO is important. "For the people of Edenton, we need to have some control...so we have to set standards that apply to everyone."

It is proposed that conditional use permits be required for department stores greater than 25,000 square feet and shopping centers more than 80,000 square feet. Adoption of a new shopping district zone is recommended.

In landscape parking requirements, the mandate to retroactively require landscape of existing parking lots has been deleted, and parking landscaping requirements in industrial zones has been eliminated.

A shopping center zoning district has been created. This requires a minimum 5-acre tract and 15% of the gross site must be landscaped open space. A Fiscal Impact Statement, Traffic Impact Statement, and Environmental Impact Statement must be filed. A rendering of the proposed

project must be submitted for review at the time of site plan submission. Architectural guidelines are set for new shopping centers or for ones that undergo expansion of 10% or more. One of these is the requirement of some kind of architectural relief every 100'. (It cannot be an expanse of blank cement wall.)

Density and dimensional regulations were also changed. In the SC-Zone:

- Minimum 5 acre tract - minimum lots size 60,000 sq. feet
- Minimum lot width 200 feet
- Minimum side yard set back 40 feet
- Minimum rear set back 40 feet

In the Highway/Commercial Zone:

- Minimum 30,000 sq. feet
- Minimum lot width 100 feet
- Minimum side yard set back 12 feet (increases 12' for each story)
- Minimum rear yard 20 feet

Citizens and Council members attending the meeting provided input to the Board, and certain minor changes will be made. The most significant of these is the rewording of the environmental portion, calling it an environmental "review" rather than an environmental "impact assessment". Additional wording sanctioning the use of listed local agencies/sources to satisfy some of the builder's requirements will also be included. Additional lighting standards will be looked at as time permits.

A move to recommend the provisions to the Council as amended and restated was seconded and unanimously passed.
