

CAROLINA HEARING & BALANCE CLINIC

IS IT HEARING LOSS, OR...

1 Is It Just Earwax?

FREE
Video Otolab Check
We can check for it with our Video Otolab. You see what we see, right on a TV screen! If there's any amount of wax blockage, you'll know immediately.
Free color photo of your ear for you and your doctor's records

2 Is It Just Sinuses Or Allergies?

FREE
Tympanometer Test*
We'll use a Tympanometer to check if there's abnormal pressure on your eardrum from these common causes.
Free computer print-out of your test results
*Note: not a medical test

3 Is It Your Middle Or Inner Ear?

FREE
Bone Conduction Test*
We'll check to see if your middle and inner ears are functioning properly. If they're not, we'll refer you to a doctor for further advice.
*Note: not a medical test

4 Do You Miss Certain Sounds?

FREE
Pure-Tone Test
We'll use the latest computerized electronic equipment to see if you're hearing the full spectrum of sounds like you should.
Free copy of test results

5 Do You Miss Some Words?

FREE
Sound Field Test
Using advanced CD audio reproduction, we'll measure your ability to hear and understand words in both quiet and noisy environments.

If You Wear A Hearing Aid...

- Does It Sound Muffled?
- Does It Cut In And Out?
- Does It Eat Batteries?
- Does It Sound Noisy?
- Does It Whistle?

FREE
Otolab Tune-Up
Complete diagnostic hearing care system that can bring your hearing aid up to full power again.

FREE
Hearing Aid Performance Check
Using a computerized analyzer we'll make sure your hearing aid is working at full capacity.

Your hearing loss could be caused by something as simple as too much earwax! At Carolina Hearing & Balance Clinic, we can help you find out for sure with a variety of tests offered FREE. Using the most modern technology and equipment, we'll check to see if you really have a permanent hearing loss, or some other treatable problem. If we find a hearing loss that can be helped with amplification, we'll show you how we can tailor one of today's virtually invisible hearing aids specifically for your loss.

June 22nd through June 28th

CAROLINA HEARING & BALANCE CLINIC

319 South Broad Street • Edenton, North Carolina • 252-482-5882

The Bone Conduction and Tympanometer tests are NOT medical tests, nor are they intended to replace a physician's care. But they do indicate if you have a problem that could be causing your hearing loss. If we find any abnormalities, we'll immediately refer you to a medical doctor for a thorough evaluation and treatment. Benefits of hearing aids vary by type and degree of hearing loss, noise environment, accuracy of hearing evaluation and proper fit.
