STATE OF NORTH CAROLINA UTILITIES COMMISSION RALEIGH

DOCKET NO. E-22, SUB 562  
DOCKET NO. E-22, SUB 566

BEFORE THE NORTH CAROLINA UTILITIES COMMISSION

DOCKET NO. E-22, SUB 562

In the Matter of Application by Virginia Electric and Power Company, d/b/a Dominion Energy North Carolina for Adjustment of Rates and Charges Applicable to Electric Utility Service in North Carolina

DOCKET NO. E-22, SUB 566

In the Matter of Petition of Virginia Electric and Power Company, d/b/a Dominion Energy North Carolina for an Accounting Order for Certain Capital and Operating Costs Associated with the Greenville County Combined Cycle Addition

PUBLIC NOTICE OF TEMPORARY RATES EFFECTIVE ON NOVEMBER 1, 2019, SUBJECT TO REFUND

NOTICE IS HEREBY GIVEN that Virginia Electric and Power Company, d/b/a Dominion Energy North Carolina (DENC or Company), is authorized to increase its North Carolina retail rates and charges effective November 1, 2019, on a temporary basis, subject to refund, pursuant to N.C. Gen. Stat. § 62-135. The November 1, 2019 rate changes are not final rates, and remain subject to the North Carolina Utilities Commission's final determination of the just and reasonable rates to be charged by DENC on a permanent basis.

The temporary increase will reflect the net of an increase in non-fuel base revenues of approximately \$8.6 million and a decrease in base fuel revenues of \$2.155 million, equating to an overall increase of approximately \$6,428,000 over the base fuel and base non-fuel rates and charges currently in effect. The decrease in base fuel revenues is not inclusive of a separate decrement Rider A1 to reduce DENC's estimated over-recovery of fuel expenses for the period November 1, 2019, through January 31, 2020. The Company is also implementing Rider EDIT on November 1, 2019, which is designed to recover all unprotected federal excess deferred corporate income taxes (federal EDIT) partially offset by the refund of federal EDIT amortization attributable to the 22-month period from January 1, 2018 through October 31, 2018. Rider A1 and Rider EDIT will not be subject to refund.

On March 29, 2019, DENC filed an application with the Commission requesting authority to adjust and increase its general rates and charges for retail electric service in North Carolina, effective May 1, 2019 ("Application"). The Company initially requested an overall base non-fuel revenue increase of approximately \$27 million, which DENC stated would be partially offset by an expected reduction in approved fuel rates. DENC further explained that the Company intended to implement new base rates on a temporary basis, subject to refund, under the authority of N.C.G.S. § 62-135. The Application also included proposed Rider EDIT.

On August 5, 2019, DENC filed supplemental testimony supporting updates to its actual revenues, expenses, rate base, and cost of capital for the period ending June 30, 2019. DENC filed additional supplemental testimony on August 14, 2019 and updated the Placeholder Base Fuel Rate used in its prior calculations to reflect the values used in the Company's Fuel Factor Filing in Docket No. E-22, Sub 579, which was filed on August 13, 2019 and also proposed Rider A1. DENC filed additional supplemental testimony on September 12, 2019 to reflect certain updates to the Company's proposed changes to base fuel and base non-fuel revenues. The net result of DENC's supplemental testimony updates was to reduce the Company's requested overall base non-fuel revenue increase to \$24.2 million and to decrease base fuel revenues to \$2.2 million.

On September 12, 2019, DENC also filed rebuttal testimony in response to testimony filed by the Public Staff and other intervenors.

On September 17, 2019, DENC and the Public Staff ("Stipulating Parties") filed an Agreement and Stipulation of Partial Settlement ("Stipulation"). Reflecting the Company's position regarding the unsettled issues, the Stipulating Parties recommend the Commission authorize an increase in non-fuel base revenues of \$8,583 million. The Stipulation also provides that the Company should implement the decrease in the base fuel factor, the corresponding resetting of Rider A1 to zero, and decrement Rider A1 on November 1, 2019. Rider EDIT will recover \$1.3 million of federal EDIT over a two-year period beginning November 1, 2019.

The November 1 Temporary Rate Changes are not final rates, and remain subject to the Commission's final determination of the just and reasonable rates to be charged by DENC on a permanent basis. On October 18, 2019, the Commission issued an Order approving DENC's financial undertaking to make refund to customers of any amount of temporary rates determined by the Commission in its final Order to be excessive.

The Commission has held public hearings on the Company's application in Halifax on July 30, 2019, Williamston on July 31, 2019, and Manteo on August 7, 2019. On September 23, 2019, the Commission held another public hearing and began the evidentiary hearing on the Company's application in Raleigh.

EFFECT OF TEMPORARY RATE CHANGE

The following table shows proposed percentage changes in North Carolina retail revenues by customer classes that will result from temporary rates implemented on November 1 Temporary Rate Changes:

Customer Class	Proposed Percentage Changes in Total Revenues
Residential	0.18%
Small General Service and Public Authority	-3.33%
Large General Service	-4.97%
Schedule 6VP	-5.45%
Schedule NS	-6.67%
Traffic Control	-1.58%
Outdoor Lighting	2.05%
Overall	-2.37%

For customers on Residential Schedule 1, the November 1 Temporary Rate Changes, if approved by the Commission, will increase the typical residential customer's average monthly bill as follows:

	Residential Schedule 1 Monthly Bill Based on 1,000 kWh per Month Billed			
Under Existing Rates (\$/month)	Under Proposed Rates (\$/month)	Change (\$/month)	Percent Change (%)	
Average	\$ 113.13	\$ 113.29	\$ 0.16	0.14%

PROPOSED RATE DESIGN / RATE SCHEDULE CHANGES

The November 1 Temporary Rate Changes will not include certain modifications to the Company's tariffs, as initially requested in the Company's application. The Company will defer implementation of the following changes until final approval is received from the Commission: (i) modifications to Rider D - Tax Effect Recovery; and (ii) modifications to Terms and Conditions of Service to revise language and update the Facilities Charges, and other miscellaneous service charges. These changes are proposed to become effective when permanent rates become effective as approved by the Commission.
