The county candidates closed their canvass here Saturday. A large crowd was present and seemed to enjoy what was said. Each one was positive that he would be elected. That afternoon there were more private confabs than you could shake a stick at.

Owing to the uncertainty of the election returns we have thought it best not to wait for them. It will be upon Wednesday or later before you can tell anything about the county, and even later about the State and National election. Next issue we will give it all to you.

We have printed for use in the election today in this county about fifteen thousand tickets, and there are only about eighteen hundred voters. The greatest rivalry seems to exist in Beaverdam Township for justices of the peace. We have printed five different tickets for the township officers, and as one may remark to us: "We'll have some fun if we all ain't elected."

The daily mail from Ranger to Wehatta and intermediate points will not do the Scour much good if the postal clerk on the A. K. & N. carries our packages destined for these points by on the morning train and back that afternoon, as was the case last Tuesday. Our subscribers must get their papers promptly every Tuesday at these points, as we mail them promptly here, and if they do not get them it is not our fault.

Consumption

Salt pork is a famous old-fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.

A blind man and a little boy were here last week and did a thriving business, operating a scheme familiar to many of our people. Pocket knives were stuck in plaiks arranged in starway fashion, you paid five cents for eight wooden rings and at a certain distance if you rang a knife it was yours. It didn't seem possible that you could miss ringing one. On the other hand it was rarely a man rung one. Many of our citizens thought it was gambling, while others thought differently.
