Chronic Catarrh is Curable

Nothing is more distressing to the sufferer and his friends. Chronic catarrh is systemic—that is, it is present throughout the body, though it may manifest itself in a local ulceration.

Only a constitutional treatment will overcome systemic catarrh. Local treatments sometimes help the acute manifestations, but they cannot overcome the systemic disorder.

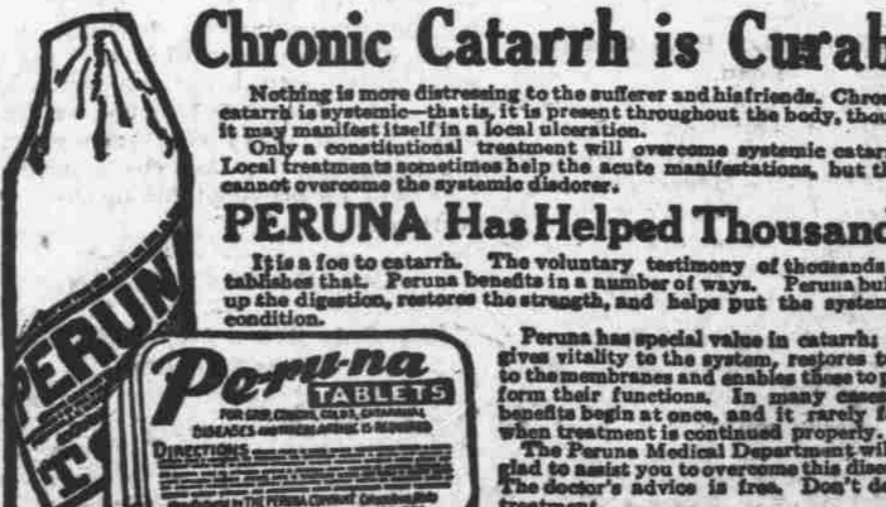

PERUNA Has Helped Thousands

It is a foe to catarrh. The voluntary testimony of thousands establishes that. Peruna benefits in a number of ways. Peruna builds up the digestion, restores the strength, and helps put the system in condition.

Peruna has special value in catarrh: It gives vitality to the system, restores tone to the membranes and enables those to perform their functions. In many cases the benefits begin at once, and it rarely fails when treatment is continued properly.

The Peruna Medical Department will be glad to assist you to overcome this disease. The doctor's advice is free. Don't delay treatment.
