Prove splendid laxative properties of Dr. Caldwell's Syrup Pepsin by test

ANY FAMILY MAY TRY IT FREE

Thousands of parents are asking themselves, "Where can I find a trustworthy laxative that works in the family and is safe when used?" I will gladly provide a liberal free sample bottle, enclosed for an immediate trial. Write me where to send it. Address: Dr. W. B. Caldwell, 325 Washington St., Monticello, Illinois, U. S. A.

SCIENTIFIC test has now proven what Dr. Caldwell of Monticello asserted many years ago, that constipation will show you up fully 25 per cent. The test was made by Dr. Donaldson of Loma Linda upon four men in the prison of...

and foul breath, cankers in the mouth, no appetite, restless sleep, indigestion, headache, nervousness, cramps. The blood pressure was up 25 per cent. It is just this that Dr. Caldwell has provided to his patients in private and to the public through the printed word ever since he began the practice of his specialty, diseases of the stomach and bowels, back in 1877.

After observing for years the satisfactory effect of his prescription for constipation, he placed it in drug stores in 1892, a simple vegetable compound of Egyptian senna and pepsin with pleasant-tasting aromatics, now known as Dr. Caldwell's Syrup Pepsin. That was 20 years ago, and today over 10 million bottles are bought annually, the largest selling family laxative in the world. You will find it in any drug store; you enter, a generous-size bottle costing you less than a cent a dose.

Every member of the family from the infants to the grand-children can use it with safety. It is gentle and mild. The formula is on the package. Mrs. Roy Cook of Bellefontaine, O., has been giving it to her 5-month-old baby, who now weighs 19 pounds; and Mr. J. B. Dawson of Branson, Mo., declares it the best laxative his family has ever found. Try a testimonial of Dr. Caldwell's Syrup Pepsin for constipation or any of its symptoms. The results will delight you. And the cost is only one cent a dose.

GRIQUI KNOCKS OUT KILBANE WINNING FEATHERWEIGHT TITLE

Eugene Griqui, the "Iron-jawed" war hero of France, knocked out Johnny Kilbane in the 6th round of a scheduled fifteen-round bout at the Polo Grounds in New York. Griqui was the aggressor throughout the fight which was for the most part a give and take affair. The knockout came in the sixth round after one minute and 30 seconds of fighting. Griqui landing a hard right to Kilbane's body following it by a vicious right to the jaw which knocked Kilbane to the floor and out. The photo shows Kilbane on his back after the knockout.

Future Timber Supply In Farmers' Woodlots

Atlanta, Ga., June 12.—For its future supply of timber the South must look to the farmers' woodlots, says Roland Turner, general agricultural agent for the Southern Railway System, calling attention to the problem and the opportunity which "our vanishing forests" present to the Southern farmer.

The farmer's woodlot can be made to yield a steady cash income as well as to furnish the lumber needed for the farm, says Mr. Turner, in urging careful management of woodlands which are on soil too rough or infertile for tillage but which can be made to pay a profitable dividend by cutting out the mature timber and protecting the young growth from injury by fire and other causes.

What can be done to make the woodlot pay is shown by the fact that in 1921 the farm woodlots of Maryland, where advanced forestry methods have been adopted, showed an average income of \$375 per acre, and each tract was cut over in such a manner that a new crop will follow the old.

As the South's largest consumers of wood as well as the owners of its present timber supply, farmers have a vital interest in forest pres-

ervation on their own farms and like their wooded lands pay a... as well as to keep down... number bill, Mr. Turner concludes.

One hundred and seventy-five bright young girls from 28 North Carolina counties attended the short course held by home demonstration workers in Raleigh last week.

Legumes and livestock go hand in hand to build up better soils and more lasting farm prosperity in North Carolina. Have you planned for summer legumes on that stubble land?

BILL SAM'S DICTIONARY

By J. L. MARTIN
The young lady who taught such a successful school in the Hoolegan district last year is running the school at Huggy Hollow entirely to her own satisfaction this year. Although she has not whipped a pupil yet, some of the patrons declare that she is too strict. When a pupil violates one of her rules she throws him down and makes him take a dose of castor oil.
