September 15, 1923

and Easy to Lay

If you want an unusually handsome but very economical pool, you'll want Barrett Everlastic Octagonal Strip Shingles. Their shape is novel—their rugged mineral sur-face in rich red, cool green or blue-black is most attractive. And they are inexpensive to apply because they are laid in strips of four instead of singly.

Everlastic Octagonal Strip Shingles are extremely durable and fire-resistant. Their price is moderate. There is no maintenance cost to consider as they need no painting. Let us estimate on that new roof.
