

WEHUTTY.

Jack frost made his appearance here last Friday. It is very disagreeable weather to farm here.

Rev. L. N. Marr filled his regular appointment at Shoal Creek Saturday and Sunday.

Miss Lucile Torrence has been on the sick list for the last week.

Mr. Oscar West and mother are visiting relatives at Etowah, Tenn.

Mrs. Henry Hedden and mother have returned home after having spent a few days with relatives at Ducktown, Tenn.

Mrs. J. R. Wilbur, of Etowah, Tenn., is visiting her mother, Mrs. Martha Roberson.

There will be a decoration at Liberty Cemetery Sunday, June 1st. Also, one at Shoal Creek, Sunday, June 8th.

Our Sunday school at Fairview No. 3-A is still progressing nicely with good attendance. There will be a Sunday school picnic on Saturday, June 28th, at this place. The program will be announced a little later.

Dr. G. M. Young has just about completed the building of a new office.

BELLEVIEW.

There will be prayer services and choir practice at the M. E. Church here every Wednesday night, conducted by Rev. T. L. Noble, pastor. Everybody will have a hearty welcome.

Mrs. Tom Morris has been on the sick list for some time but is improving slowly.

We are glad to see Mr. A. J. Hughes up again after being ill for so long a time.

Messrs. Hobson Hughes and Clifford Hall motored to Young Cats, Ga., Sunday afternoon and reported a nice time—not even having a puncture.

Mr. and Mrs. Jesse Loudermilk of Isabella, Tenn., spent Sunday with Mrs. Loudermilk's parents, Mr. and Mrs. S. A. Hughes.

Mr. John F. Bolder, of Blairsville, Ga., visited friends here Sunday.

Mr. and Mrs. Ira Barber, of Cuthbertson, spent the week-end with Mrs. Barber's parents, Mr. and Mrs. S. B. Patton.

Misses Marie Price and Lucile Patton motored to Ivy Log, Ga., Sunday and report a nice trip. There was a good singing and a big free dinner.

WOLF CREEK.

Messrs. Riley Morgan and son, Elbert, with their families, motored to Ducktown, Rogers Ferry, and other points Sunday.

Mr. Billy Hancock, with his family, visited at the home of Mr. David Stuart over in the edge of Georgia, whose wife is down with pneumonia.

Mrs. Mary Ann Harris, widow of the late Wm. Harris, was buried at Macedonia church on Tuesday of last week. Mrs. Harris got her hip dislocated several months ago and never recovered from the accident. She lived near Isabella, Tenn.

A little child of Bill Fortner's, which had been buried at Ducktown some two years ago, was taken up and reinterred in the cemetery at Macedonia one day last week.

Mr. and Mrs. Perry Carter of Virginia are visiting the former's father here, Mr. A. N. Carter. They motored through here but sold their car to Mr. A. E. Cloer and will take the train back home.

A Sunday school has been organized at Macedonia church, with Mr. A. E. Cloer as superintendent, and Mr. Will Amburn, assistant. Everybody are welcome.

Our farmers are no further along with their spring work than they usually are one month earlier than this. The crop outlook certainly is discouraging.

BETTER BEEF BY ELECTRIC PUMPS

Make Fresh Water Possible, and Iowa Man Finds Cattle's Weight Gains Accordingly.

It has been established conclusively, in the practice of successful farming, that fresh water, as distinguished from standing water, means better live-stock. And it has now been established, in addition, that an electrically operated pumping system on the farm is so efficient in providing a supply of fresh, running water, that it is comparable with that finest of all water supplies—a natural spring. The experience of an Iowa farmer

Electrically Operated Water Supply System for Farm Use.

In this matter has just come to notice. This farmer, who is also a local banker, was raising beef cattle.

He made tests on the relation of water to the weight of his stock and noted that his cattle drank more water when it was pumped fresh from the ground for them, than when they drank water that had stood long in the tank.

Following a study of the matter, he and a neighboring farmer put in an electric power line for their farms, expending together about \$1,100. After a year's operation, from that particular station, 37 carloads of cattle were shipped. Seven of these carloads were from three farms—a farm with a spring and the two farms equipped with electricity.

Difference Due to Water. The cattle in those seven carloads were the only cattle out of the entire 57 carloads that brought top prices on the market. Moreover, the average weight of the cattle in those seven cars was 58 pounds per head greater than the average weight of the cattle in the other cars. The banker-farmer attributed this entirely to his facilities for giving the cattle an adequate supply of fresh water at ground temperature, and he estimated that in this year alone he made approximately \$400 on his investment.

FARMS AND CITIES A MODERN CONTRAST

Inequalities Noted by One Who Has Electric Light and Heat Within Finger Reach.

In the thinly settled regions are many folks who yearn for the time when electricity will reach them. This is made plain by a letter which appeared in the Michigan Patron, official organ of the Michigan State Grange, a short time ago. This correspondent said:

"Reading about the Grange investigation of water power for farm use has set me thinking about the inequalities of our present opportunities.

For instance, for three weeks I've been commanded to lie in bed and keep absolutely warm. Even though it has been 12 degrees below zero part of that time, at any moment I might do two things—with one hand I could reach up and by a whirl of my fingers flood my room with brilliant light, while with the other hand I could turn a current of heat into an electric pad at my side. Thus somewhere, perhaps out in a distant river, water was working to send me light and heat.

"But I happen to know that not many miles away there are farm men and women dairying by lantern light and gasoline power. And I think, too, of another farm woman who lives so close to a city she sees its twinkling lights every night. One night at Grange the lecturer asked this woman to tell what she'd do if she had \$50 to make her work easier, and she stood up and named more improvements than \$1,000 would install—all electrical. Among other things she said: 'Every member of my family needs a lamp to study or work by every night, and every morning I must wash and fill those lamps. What a help it would be to me to be spared this daily task!'"

PUTTING HOSPITALITY INTO THE LIVING ROOM

Electricity Allows Attractive Lighting and Reading Nooks, Say General Electric Specialists.

There is no special reason why the "best room" of a farmhouse should not be an attractive living room, which the farmer and his family can enjoy every evening instead of a formal parlor, never used except when the parson comes to make his semi-annual call. A living room is meant to live in, to spend leisure time in, and on the farm, as well as in the city, most of the leisure time comes in the evening—especially the long winter evenings.

With electric lights a farmhouse living room can be made as pleasant, as

for such fixtures are pleasingly decorated and can be made to harmonize with the room decorations.

Indirect and Local Lights

The principle in such an arrangement, as pointed out by lighting authorities of the General Electric Company, is one of reflected light. The light itself shines directly on the ceiling and is reflected downward upon the room without the slightest glare nor any shadows. A white ceiling or one of light tint is the best for such a plan as this.

But a fine, clear, mellow light from

Left—A cozy corner with electric lights. Below—One way of lighting the living room.

happy, as any room in the house. This isn't so easy, however, with the center gas fixture or with a center fixture that combines gas and electricity. Nor can it be done successfully if the wiring is not sufficient to allow a bit of variety in the lights.

Bright Lights, Artistic Fixtures. The illustrations show specimens of living room lights which are good, bright lights and at the same time cheerfully attractive and artistic to see. Glass-shaded pendant lamps in the center of the room are economical and fairly decorative. The lamps should be frosted—that is, frosted bulbs should be used to decrease the glare.

There are other styles of fixtures that are even better looking. And some folks like semi-indirect fixtures, which give a wonderfully mellow, soft glow, no glare at all, while the light floods over the whole central part of the room. An electric lamp of high wattage—100 to 150 or even 200 watts—is necessary with a fixture of this sort, and that, of course, means more consumption of electricity, and consequently a greater expense. In the lightful illumination which results is considered worth the cost. The shades

of the center of the room is not the only illumination possible or desirable in a living room. That serves excellently when there is company. It's a fine light under which to entertain the parson.

If the wiring of the house has been well planned, however, there will be one or two service outlets, or wall plugs, in the living room. And then a handsome, cozy electric reading lamp can be placed on a table in a corner or beside a comfortable chair, making a snug spot for dad to read the paper or the livestock weekly, or a pleasant nook for ma to darn stockings—and listen to the radio!

RAILROAD MAN GIVEL FACTS IN HIS CASE

First Bottle Of Tanlac Put Cornatzer on Road To Recovery From Stomach Trouble

"Before I finished my first bottle of Tanlac, I was eating everything. The old adage 'a stitch in time saves nine' is very forcefully illustrated in a statement regarding Tanlac made recently by S. D. Cornatzer, 1706 13th St., Lynchburg, Va., a railroad brakeman.

"It looked like I was going to have to quit work if I didn't find something to fix me up and I certainly count myself lucky that I got Tanlac.

"I could hardly eat a thing without having indigestion bad and

was so nervous that I couldn't to amount to anything. Constipation was also bothering me. I had headaches and was extremely and run-down.

and sleeping fine and six bottles me feeling strong and fit for work. I don't want to get back that condition again so whenever feel a little run-down, I go straight for Tanlac. It's a great tonic!

Tanlac is for sale by all good druggists. Accept no substitute. 40 million bottles sold.

Tanlac Vegetable Pills For Constipation.

Made and recommended by the manufacturers of TANLAC.—Adv.

Murphy, N.

Kentucky's Home Coming June 16th ~ 29th

With these memories comes the desire to return; the urge to visit the old homestead and renew old ties.

From the world over, sons and daughters of the Bluegrass State will return to take part in the tremendous home party and State-wide reunion that is being prepared for them. All the pleasures that a proud State can bestow upon its loved ones will be theirs.

"The Sun Shines Bright In My Old Kentucky Home"

Whenever the mellow strains of these immortal words of Stephen Collins Foster strike the ear a surge of memories wells the heart of every Kentuckian. Memories of boyhood and girlhood, of pleasure and pain, of life at its sweetest.

Foregathering for the week of June 16-22 in Louisville the Home-Comers will move from there for the week of June 23-29, to their own counties, where the program will be continued.

It will be a celebration unique in the annals of entertainment. No loyal Kentuckian will want to miss it. Thousands upon thousands are planning to attend.

The Louisville & Nashville Railroad OFFERS SPECIAL RATES

Low round-trip railroad fares to Louisville, and from there to all parts of Kentucky, will be in effect for Kentucky's Home-Coming.

For full information about reduced fares, dates when tickets go on sale, return limits, stop-over privileges, ask your Louisville & Nashville ticket agent or passenger representative. He will gladly assist you in making your arrangements.

UPPER BEAVERDAM.

The farming people of this section are behind with their work on account of so much rain.

Mr. Jerry Radford and Mrs. Viola Roberts spent Sunday afternoon at Mr. W. B. Horton's.

Mr. Bennie Radford, who recently returned from Newton Falls, Ohio, is herding cattle for Mr. L. D. Garrett and others.

Mr. L. D. Garrett, who is working on Davis Creek, spent the week-end with home folks.

Mr. George Garrett, who has been in this part for the past year, left Monday for Talking Rock, Ga., where he will spend some time with relatives and friends.

Mr. Lon Clayton made a business trip to Unaka Saturday.

Miss Ethel Clayton took dinner with Miss Etta Garrett Sunday.

Mr. W. B. Horton and son, Jesse, made a business trip to Grandview Saturday.
