## ALL OUT OF SORTS

So was This Good Woman Who Tells Her Experience

All too often women accept their pains and aches as natural to their sex. They fail to realize that weak kidneys are often to blame for that backache, those headaches, dizzy spells and that tired, depressed feeling. Thousands have found new health and strength by helping the weakened kidneys with Deane's Pills—a stimulant diuretic. This case is one of the many in this locality:

Mrs. Z. V. Burrell, Whitmore St., Brevard, N. C., says: "I had a dull ache across my kidneys and I felt tired out. It was almost impossible for me to straighten after bending and blinding, dizzy spells came over me, too. I had headaches and nervous spells, too. I used Deane's Pills and in a short time I was feeling like myself again."

Mr. Fred Bates, manager of the local theatre, announces that the show house will be closed during the entire period of the Truet Revival, August 12-22.

Mr. W. T. Loretto has purchased the stock of supplies belonging to James M. Capps and leased the Tilson Electric Shoe Shop, and will operate it in the present stand.

The evening hours are primarily for those who want to go to the library and read. Several newspapers, magazines and other periodicals have been provided for this purpose.

### CARD OF THANKS.

I take this method of thanking my friends for the good vote I received in the general convention at Murphy for highway road commissioner, and thank you in advance for a good vote in November, and if elected will serve you exactly on the square, and to the best of my ability.

Respectfully,  
D. S. DAVIS,

## "THE COVERED WAGON"

One of the most compelling and primitive love stories ever told on the screen is embodied in "The Covered Wagon." James Cruze's big Paramount picture which will play at the Bonita theatre, Murphy, N. C., one day only on August 1st. The romance between Molly Wingate, "the belle of old Liberty town," and young Will Barton, late of Doniphan's army in the war with Mexico, with a studied record which brings about a near disaster for the lovers of love, is not only beautiful but inspiring. There is all the strength of passion, the rugged charm and the wilderness sweetness that characterized the country in the days of '48.

# VICTORIES that build Firestone LEADERSHIP

## Firestone Leads on Speedway with Five Record Breakers

When the race driver selects his tires he does so realizing that his life and chances for success depend upon them. It is significant that all of the ten money winners in the Indianapolis race were Firestones shod. Firestone, using gum-dipping and other special processes, has developed tires to such a high degree of efficiency that at Indianapolis, May 30th, the following drivers broke the world's record for 500 miles over this brick track, making many rounds at over 100 miles per hour. Never before were tires put to such grueling service, where it was necessary for every ounce of rubber and every fibre of fabric to work in perfect unison with every other part.

Driver	Time	Miles per hour
Joe Boyer—L. L. Corum	5:08:33.51	98.24
Earl Cooper	5:08:47.18	97.99
Jimmy Murphy	5:08:35.39	97.97
Harry Harts	5:10:44.29	96.55
Bennett Hill	5:11:07.00	96.48

**Leadership in Everyday Service**  
Millions of motorists are profiting by the lengthened service of Firestone tires. Scores of unsolicited testimonials emphasize the long mileage Firestone Gum-Dipped Cords deliver—which builds leadership in service, safety and economy.

**Leadership on Cabs, Buses and Trucks**  
The largest taxicab companies in the five largest cities in the United States use Firestone Gum-Dipped Cords exclusively. One fleet alone, the Yellow Cab Co. of Chicago, uses over one-half million tire miles per day.

Firestone for years has been first to develop tires and rims complete which would meet the heavy trucking loads, great strains and demand for traction. By originating and carrying forward the Ship by Truck movement, and establishing Ship by Truck bureaus in all large cities, Firestone helped to speed up highway transportation and reduce costs.

**Balloon Tire Leadership**  
Firestone's latest contribution to motoring is the low air pressure or Balloon Tire. This, the original full-size Balloon, was made practical by the special Firestone Gum-Dipping process, insulating every fibre of each cord, adding great strength and stamina. Firestone has also simplified the application of full-size Balloon tires to your present car by designing a special unit consisting of tires, tubes, rims and spokes applied by any dealer at a very low cost.

**Leadership Against British Rubber Restriction Act**  
Attacking the unsound and uneconomic character of the British Rubber Restriction Act limiting the exportation of rubber from the Far East, Firestone was the one large tire manufacturer to take up the cause for the car owner. Soon after the agitation was started for America to produce rubber under its own control, the cost of crude rubber was reduced and tire prices brought back to normal.

**Dealer Leadership Through Tire Quality and Service**  
Through Firestone dealers you can obtain organized service and the soundest values on the market, whether you need a Ford 30 x 3 1/2 Fabric, a set of full-size Balloon Gum-Dipped Cords or a 16-inch truck tire.
