Phillips of Robbinville, was a business visitor to Murphy this week.

Frequent Bilious Attacks
"I suffered with severe bilious attacks that came on two or three times each month," says Mr. J. P. Nevins, of Lawrenceburg, Ky. "I would get nauseated. I would have dizziness and couldn't work. I would take pills until I was worn-out with them. I didn't seem to get relief."
"A neighbor told me of **BLACK-DRAUGHT Liver Medicine** and I began its use. I never have found so much relief as it gave me. I would not be without it for anything. It seemed to cleanse my whole system and made me feel like new. I would take a few doses—get rid of the bile and have my usual clear head, feel full of pep, and could do twice the work."
Bilious attacks are "seasonal" with many people. Millions have taken Theford's Black-Draught to ward off such attacks, and the good results they have reported should induce you to try it.

CASTORIA
For Infants and Children
In Use For Over 30 Years
Always bears the Signature of *Wm. D. Galt*

Mrs. C. M. Wofford left last week to visit her daughters in Ball Ground and Marietta, Ga.

Mr. P. C. Hyatt spent several days last week in Marietta and Atlanta, Ga.

Mrs. Dolph Cartinger returned to her home in Knoxville Sunday after spending two months with her parents, Mr. and Mrs. H. B. Elliott, of Peachtree, and other relatives in the county.

Charles Diekey, who is attending Young Harris College, spent last week-end at home.

Mrs. Edw. E. Adams returned Wednesday from a visit to her mother, Mrs. Geo. W. Suggs, at Knoxville, Tenn.

Mr. George W. Candler spent several days in Asheville this week on business.

Mr. and Mrs. Casteel Hawkins announce the birth of a son on September 29th.

Mr. and Mrs. Elbert Warner and baby returned to their home at Black Mountain, after spending some time with their parents, Mr. and Mrs. Loudermilk at Regal.

Mrs. T. L. Sasser is in the hospital for a few days of recuperation from a rather serious illness.

The most unheard of thing! Music from an old—but let the Kitchen Cabinet Orchestra show you how it is done, at the school auditorium tonight. Something funny enough for all. If you don't laugh you had better go and consult your doctor.

Mr. W. F. Kricklan, of Asheville, is here this week doing survey work for the Carolina-Tennessee Power Company.

Miss Jewel Harrison, graduate of Knoxville General Hospital Training School for nurses and for sometime supervisor of the operating room in the Christenberry, eye, ear, nose and throat hospital of Knoxville, arrived Monday night to take charge of the nursing department of the Murphy Hospital. Mrs. Elizabeth Cole, the efficient matron, will remain in that capacity.

NEW METHOD HEALS PYORRHEA

Ten Year Bad Case Completely Healed in a Short Time, Writes Florida Woman.

Faced with the loss of her teeth, after 10 years' suffering, Mrs. M. J. Travis, an esteemed resident of Jacksonville, declares she finally saved her teeth by a simple home treatment: "worth its weight in gold." Using her own words: "After having pyorrhea for 10 years my mouth is now healed. Before I found out differently, I was told there was no relief and had yielded to the loss of six fine solid teeth. Then I discovered Moore's pyorrhea treatment. Three days after starting its use, the soreness left my gums; my teeth began to tighten. Now my teeth are clean, my breath sweet, and my mouth completely healed."

The experience of Mrs. Travis is duplicated in hundreds of other cases. If you have pyorrhea—or threatened with pyorrhea your teeth are in danger. Quick and effective treatment is necessary. You can test, without money risk, the treatment used by Mrs. Travis. Simply write the Mooreham Co., 2673 Gateway Station, Kansas City, Mo. Under their guarantee or refund send two dollars. Or, pay postman the \$2 with a few cents postage. Use the treatment 7 days. Then if you are not wholly satisfied, write to that effect and your \$2 will be returned at once.—Adv.

Mr. Jim Franklin returned last week from Florida where he spent several weeks.

Mr. L. H. Deweese, of Knoxville, spent several days here this week with his mother, Mrs. Mary Deweese.

METHODIST LADIES ENTERTAIN TEACHERS

The ladies of the Methodist Church gave a reception to the teachers and educational workers in Murphy in the social rooms of the church Tuesday afternoon from four until five o'clock. The teachers in the public school, those connected with Murphy College, and those interested in establishing a folk school in the Southern Appalachian Region, under the direction of the Russell Sage Foundation were invited. A goodly number of the ladies of the church were present. The guests were received at the front door of the church and shown to the social room where they were presented. A delightful social hour was spent, during which cake and ice cream were served. Nasturtiums were passed out as favors.

Mrs. J. D. Mullen was to have tendered the official welcome to the guests but found at the last minute that she was unable to be present. She had prepared the following word of welcome for this purpose:

Ladies and Gentlemen, we are assembled here to spend a social hour in which we hope to become better acquainted. It may be that new

friendship section of this and Clay Counties with a view to the establishing of a special type school similar to the folk schools of Denmark and Finland. Miss Butler and Mrs. Campbell, wife of the late Doctor Campbell, Author of the Southern Highlander and His Homeland, are going over the Southern Appalachian Region with a view to starting a school similar to those maintained in Denmark, in the hope that such a school will prove the force that is needed to awaken the community consciousness of the rural people of the great Appalachian region and lift them out of their present measure of material success.

Miss Butler came about ten days ago. She has been conferring with county and local school officials, the people of the county generally and with citizens of Murphy who are interested in the movement. She spoke to a group of citizens at the Braxton Church Sunday afternoon after church services; and they manifested so much interest that she agreed to go back to the same community for another meeting Wednesday night, accordingly, Miss Butler, together with a group of interested citizens of Murphy, held a meeting in the Peachtree Baptist Church to further explain the type of school to the people. So much interest was manifested, that Miss Butler agreed to bring Mrs. Campbell here sometime the latter part of October to go into matter further. Besides this location, only two other sections in West Virginia are thought suitable for such a school.

RUSSELL SAGE FOUNDATION MAY ESTABLISH SCHOOL IN THIS SECTION

Miss Marguerite Butler of the Russell Sage Foundation is here this week looking over the Braxton and

"COLD IN THE HEAD"

is an acute attack of Nasal Catarrh. These subject to frequent "colds" are generally in a "run-down" condition. HALL'S CATARRH MEDICINE is a Treatment consisting of an Ointment, to be used locally, and a Tonic, which acts quickly through the Blood on the Mucous Surfaces, building up the System, and making you less liable to "colds." Sold by druggists for over 40 Years. F. J. Cheney & Co., Toledo, O.

Firestone
Double the Mileage at Half the Cost
Only a few years ago a 32 x 4 cord tire listed over \$50.00. Today, you can buy the highest quality 32 x 4 tire—a Firestone Gum-Dipped Cord—for about \$26.00.
Last spring crude rubber cost tire makers around 40 cents a pound. Today, it is over 90 cents a pound.
It was not so long ago that 7,500 miles represented the average life of a cord tire, while today, 15,000 miles—and more—is only the usual performance for a Firestone Gum-Dipped Cord.
Due to large, concentrated production, specialized machinery and simplified factory methods, together with economical distribution, Firestone is able to keep tire prices low—no matter where the price of crude rubber goes.
And, because of special Firestone processes, chief among which is Gum-Dipping, motorists are today getting thousands of extra miles by using Gum-Dipped Cords.
Gum-Dipping is an exclusive method used by Firestone. It is an extra process, carried out in special Gum-Dipping plants, after which the cords are put through the usual calendaring machines. Gum-Dipping insulates and impregnates every fiber of every cord with rubber, and practically eliminates internal friction and heat, and builds strength and endurance into the tire.
In the day-in and day-out service of taxicabs, buses and trucks—on the cars of hundreds of thousands of motorists everywhere—Gum-Dipped Cords are giving unheard-of mileage, dependability and satisfaction.
Get ready for the coming months of slippery pavements and bad roads. Assure yourself of greater safety, comfort and economy by equipping now with Firestone Full-Size Gum-Dipped Balloons.
