BLAIRSVILLE NEWS

Mrs. Clyde Brady of Tate Ga. has been visiting her parents Mr. and Mrs. C. Y. Rogers for the past few days.

Capt. H. L. Carroll of Blairsville, veteran of the World War, while engaged in the sport of chasing the innocent hare with the aid of a 45 automatic pistol, was wounded one day last week, being shot through the finger by the accidental discharge of the shooting iron with which he was armed. Capt. Carroll having experienced skirmishes of various types during his past life, escaping with nothing worse than a blistered heel, how strange it may seem, but it is oftentimes safe to play with the forked lightning while a painful blister may be raised by the pleasant summer sun.

The hoary frost has wafted his breath over the rag weeds with a deathly blast, immobilizing the lovely pinks the last flower of the summer. The deep mouthed hound's heavy bay resounds from the chase of the furbearing quadruped the opossum. The cricket chirps in accord with the singing wren. This the eventful time when the "fiddles" are playing lilting melodies accompanied by the tinkling of an old banjo manufactured from the eoddy coat of an old house cat. Violin music may be suited to the opera and church but to the people of the Appalachians, the sound of the "fiddle" is as the harp of Sirenes—irresistable in its call to feet which often keeping of time wafts upon the autumn ether from the punchoon floors far above the highest note rhythmically accompanied by the old square dance call: All Set!

The BULL'S EYE

Editor and General Manager WILL ROGERS

I see where some of the Foreign Nations say they are going to FUND their debt to America, and all the Papers are all excited about it. But the BULL'S EYE is a Paper that never misleads our readers (either one of them). FUNDING a debt means about the same thing as having a fellow that has owed you for years, come to you and say "I am going to make arrangements to take up that loan I owe you just as soon as I can collect it from some fellows who owe me." So don't let any means get FUNDING mixed up with PAYING. The two have nothing in common. These Nations are just stalling until another War comes along and the first thing you know our debt will be four Wars behind. We have enough saved up to fight again, but they are using it now to enforce Prohibition.

Oh, yes, "BULL" DURHAM. I like to forget to mention that. Well, that is what the Foreign Nations are paying us in. "BULL" DURHAM without the DURHAM.
