Look out! The whiskey association—with millions of money, are moving heaven and earth to repeal the Volstead act; to weaken the eighth amendment, and to bring back high powered alcoholic beers and liquors. They are prefecting organizations to nominate only "We Men" to both branches of congress in the coming primaries. And they are undertaking to control both parties, so as to fill as many offices—federal, state, county, city—with men "friendly" to whiskey as possible. Study your man and your vote in the coming primaries. Watch that you do not vote for "Red-Eyed-Liquor". They say that prohibition does not prohibit. Then why do they work so hard, and spend so much money, to defeat it? Speaking of this charge, "That prohibition does not prohibit," we heard a preacher say: "If prohibition does not prohibit, no doubt it is because so many of our 'best citizens,' church-members, good people—so called, buy and drink the stuff, sign the Tiger's bond, give him a good character in court, sign petitions to get him pardoned or paroled."

What about Congress—Women? There are three women in the present congress. Two of them—a New Jersey democrat and a California republican are avowed "Wets"; and both have introduced bills "modify" the Volstead-law and "liberalize" it. And the whiskey people claim the third Congress-woman, Watta women these be? Shame, shame, on a political woman who gangs with the whiskey crowd!

Anent the talk of repealing capital punishment: If said law had been abolished, what power, do you suppose, could have prevented "mob-law" in the case of the two men who robbed and criminally assaulted poor old Mrs. Mary Wright near Charlotte last week? And what about the two pairs (4) of Young men in Georgia who asked automobilist for a ride, and then murdered and robbed the two automobiles who had accommodated them with a lift in their cars? If Georgia had no capital punishment laws, there would have been four lynchings in Georgia.

Disbelier in capital punishment is sentimental and gushy any way. It means non-law enforcement and disorder. It means more and more murders, etc., until we become a country of anarchist.

THE SOUTH MUST GROW ITS OWN FOOD NO FARM SECTION CAN BUY IT! FOOD AND GRAIN AND BE PROSPEROUS

Atlanta, Ga.—(Special).—Few people in the South realize the enormous drain there has been on the South's wealth through the steady food and grain buying during the past fifty years. What's the greater pity of it is the fact that most of the money comes directly out of the farm pocket," said H. G. Hastings, of Atlanta, Chairman of the Farm and Marketing Bureau of the Atlanta Chamber of Commerce.

"For fifty years or more the cities and towns of the Cotton Belt have been furnishing food and grain to the farmer instead of our farmers feeding the cities and towns. While the cities and towns have had the best of the unnatural business, it has really impoverished both country and city."

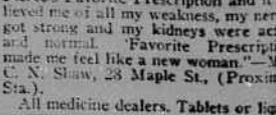

"As nearly as can be ascertained, my own state of Georgia has spent in the last 25 years not less than two and one-half billion dollars for food and grain from the North and West, real hard cash money that ought to be sticking in our farmers' pockets. That money is gone never to return."

"It is no over-statement or exaggeration to say that twenty-five million dollars of the South's money has gone that way in the last fifty years. It was good, hard worked for farm money. What we have been doing is spending our lives growing cotton, trading it off for bread and meat at no profit to ourselves."

"No use to 'cuss' the powers that be in Washington or the trusts, banks or speculators. They may have had a part but a mighty small part in comparison with the part we ourselves have played. The way to stop that drain on our pockets is to stop buying food, grain and forage and produce those necessary items at home acres."

More Than 75% of the Million Dollars A Day Taxes Paid by the Railroads Goes to State and Local Governments

The steam transportation lines of the United States are now paying taxes at the rate of \$42,000,000 every hour of the twenty-four hours, Sundays and Holidays included, the gigantic total of approximately \$365,000,000 per year. While this budget covers Federal, State, County and Municipal taxes, it is a significant fact that the welfare of the community in which you live is affected to the extent of 75% of this great total. In other words, 75% out of every dollar tax paid by the railroads goes into state and local treasuries, and every time you buy a railroad ticket or ship a consignment of freight you are contributing to the development of your community and the prosperity of your state and nation. These tax funds are used to defray the operative expenses of all branches of our Government. They are used to build roads, to operate schools and to support public institutions. For many years past the amount of money paid in taxes by the steam railroads has exceeded that paid in dividends to the owners of railroad securities. Remember these figures and compare them with the relatively small taxes paid by the bus and truck lines, which road taxes and which are competing with the steam carriers for your patronage. Be fair to the railroads—they are affording the American people the greatest transportation service in the history of the world—and at the lowest cost. In 1925 the L. & N. Railroad paid taxes amounting to over seven million dollars, a sum substantially greater than the dividends paid to its stockholders.
