Getting Up Nights

Tell you there is danger ahead. A healthy bladder does not act at night. J. H. Derton, W. Graham, Va., says: "I had to get up seven or eight times at night for forty years. I thought it was my age. After taking Lithiated Buchu a short time, I am alright." Lithiated Buchu cleanses the bladder as Emsom Salts do the bowels, thereby relieving irritation driving out foreign matter and neutralizing excessive acids. These are the causes of unnatural action of the bladder at night. Lithiated Buchu (Keller Formula) is not a cheap medicine. The tablets cost 2 cents each. Sold at all leading drug stores or Keller Laboratory, Mechanicsburg, Ohio.—R. S. Parker Drug Co.—Adv.

Anyway, the Senate carries out about as many of its resolutions as the private citizen does at New Years.

Headache dizziness

"I HAVE headache once in a while, usually coming from constipation or torpid liver," says Mr. L. A. Morphis, of Pottsville, Ark., "and the very best remedy I have found to correct this condition is Thedford's Black-Draught. It acts quickly and easily, and it just can't be best."
 "Black-Draught is the very best laxative I have found. I always feel so much better after taking it."
 "My wife takes Black-Draught, too. For dizziness, costiveness and any little stomach disorder, we find it most satisfactory, and consider Black-Draught a family medicine."
 Constipation, with an inactive liver, locks up poisons in the body and allows them to do their dangerous work.
 Being purely vegetable and containing no harmful drugs, Black-Draught acts gently, helping the system get rid of impurities and preventing serious sickness. Get a package today. Sold everywhere. 25 cents.

To Those Who Judge Quality by Price

The quality of Ford cars cannot be judged by the prices at which they are sold—because Ford prices are made possible by conditions that are absolutely unique in the automotive industry.

From mine to market the Ford car is the work of a single organization. The Company owns and operates the mines and forests that furnish the raw materials for its products. This material is carried over Ford transportation routes, fabricated in Ford mills, manufactured in Ford plants—and the finished product is sold to the public through Ford dealers.

The following statement, previously made in an advertising message, is repeated because of its significance to the public:

"If any other manufacturer endeavored to produce a car similar to the Ford, according to the high standards of quality in material and workmanship used by the Ford Motor Company and with the same tried and proved design, it would be impossible to offer it at anything like Ford prices. And it is well to note that even with less costly design they have not met Ford prices."
