W. N. C. SHARES WET HONOR WITH NORTH GEORGIA

RANKED AS WETTEST SPOT IN EIGHTH FEDERAL DRY DISTRICT

Charlotte, N. C., Aug. 7.—Western North Carolina and North Georgia were ranked as the two wettest spots in eight federal prohibition districts in the report for July issued yesterday from headquarters here.

The eighth district proved a fertile field last month, combined activities in Georgia and the Carolinas yielding a total haul of 6,652 gallons of whiskey 341,410 gallons of beer \$134,459 in property seized and 244 arrests with prosecution recommended.

Arrests by Federal officers in the three states totaled 188,035 more being effected through the combin-

ed activity of State and Federal officers. Prosecutions recommended in Federal courts were 244 and in State courts 35. The rum fraternity of North Carolina surrendered 128,990 gallons of beer and 1,696 gallons of spirits and 47 gallons of wine during the month, running a close second to that of Georgia and Swamping South Carolina.

Destroyed property, confiscated in North Carolina was appraised and valued at \$48,179.75. Seventeen automobiles captured were valued at a total of \$5,970. The total valuations of property seized and not destroyed was valued at \$6,214.50.

The dry agents arrested 111 alleged booze handlers during the month and captured seven others with the aid of state officers.

Illicit distilleries totalled 141 in this state, stills 12; still worms, 46; mash 480 gallons; pomace 250 gal-

Millions in Pearls

This pagoda, a part of the Japanese exhibit at the Sesqui-Centennial International Exposition in Philadelphia, celebrating the 150th anniversary of the signing of the Declaration of Independence, is made entirely of pearls and its value exceeds \$1,000,000. The exposition continues until December 1.

lons; fermentors 935. Of the State total Western North Carolina contributed 76,400 gallons of beer 1,291 gallons of spirits, all of the wine, mash and pomace, 496 of the fermentors, 15 of the automobiles, 85 of the distilleries, five of the stills, 43 of the worms.

This section of the state netted \$27,029.75 of the property destroyed and \$4,359 of that saved. Seventy arrests were made in this territory by Federal officers and all seven of those made by State and Federal combined.

400,000 STORES SOUNDS LIKE SHOPPERS EDEN

It Takes Almost Half a Million Dealers to Keep Coca-Cola Handy for Everyone Who Wants It.

A recent check of the number of stores in which Coca-Cola is sold showed a total of more than 400,000. A woman could spend 60 years of her life shopping every day but Sundays, half an hour in each store, and still wouldn't be able to visit all of them, even if they were next door to one another.

One of our local statisticians has figured out the magnitude of 400,000 dealers another way. He says that if you could stretch three parallel streets clear across the state of Ohio you could give each Coca-Cola store a 20-foot lot, put the stores right next door to one another on both sides of the street, fill all three streets and have a few thousand stores left over.

"Coca-Cola has the greatest distribution of any product made by a single company. It is sold in thirty countries," says C. K. Hoover, manager of the Murphy, N. C., Coca-Cola Bottling Company. "The drink has been steadily increasing in popularity for forty years. Its sales reach 7,000,000 a day."—Adv.

DIPPING INTO SCIENCE

Phosphorus

Usually manufactured from bone ashes and phosphate rock is an extremely poisonous, wax-like substance, yellow in color and should not be handled except under water. A burn from phosphorus is slow to heal, and a very small amount taken internally will cause death.

Diseases of the bone are very common among people who assist in its manufacture.

Fire in Kaniksu National Forest

Charred ruins are all that remain in the wake of the forest fires that for the last month have been sweeping the Kaniksu National Forest in northern Idaho. More than 75,000 acres have been covered by the fire. Valuable stands of white pine and cedar, and reproduction stands that have reached a growth of 50 to 80 years have been razed. The conflagration, started probably by a careless camper, sweeps through the forest at the rate of 15 miles an hour.

Not Much of a Testimonial

Curried Vegetables

CURRY powder comes from the leaf of an East Indian tree. We use it for making a tart sauce to relish our boiled rice, meats, and vegetables. Its pungent flavor tickles the palate, leaving it hot with a spicy taste. A curry dish may be made up of almost any combination of canned vegetables from your supply shelf. Here is one good combination:

Curried Carrots

- Slice and cut in fancy shapes 1 can carrots, an equal amount of boiled potatoes, and one cup cooked turnips. Add salt and heat in double-boiler. Add one-half cup canned peas, from which the liquid has been drained, and pour over the mixture a sauce made by cooling two tablespoons butter with two slices onion five minutes, removing onion, adding two tablespoons flour, three-fourths
- 1/2 teaspoon salt,
- 1/4 teaspoon curry powder
- 1/4 teaspoon pepper
- 1/2 teaspoon olive oil
- 3 tablespoons vinegar
