Judge James R. Hamilton

Famous Texas jurist before whom the Rev. J. Frank Norris will be tried on the charge of murder at Austin, Texas, starting January 10th. Judge Hamilton recently exposed K. K. Kmmbechip in a sweeping investigation.

264.4 Miles Per Hour

Major Mario De Bernadi, Italian wiation ace who established a new world speed record of 264.4 miles her hour to win the Schneider Cup tt Norfolk, V2.

AMAS MONEY FOR YOU

Search Your Attic for Fortunes in Old Confederate Envelopes

Among the old lenters of many Southern Landhes are hundreds of very rate stants and evolopes. Many have been leared and soid for small fortunes. Staple envelopes have been sold for as high as \$2,000, and many have throught upsards of \$100 each. It sounds "fishly," but it's true. They are valuable because they are rate. And they are rate, not because there are only a few, but simply because most of them have remained stored away and forgotten, in old trunks and closets.

Make a thorough search through your artic or store room for these old war letters. Fortunes in rare stamps or franked envelopes have been found in old trunks which no one ever dreamed comained anything of value. Keep the letters if you wish, but send the envelopes to Mr. Harold C. Brooks, Box 223, Marshall, Michigan, and he will immediately write you, stating their value. In sending them to him you are not obliged to sell unless his offer meets with your approval. Anything nor purchased he will return in good order. Mr. Brooks, who is many or of his city, is a private collector and has paid thousands of dollars for old envelopes. Although the rare issues are especially desired he also buys many of the commoner kinds. Many people in this way are getting Christmas money with very little trouble and no expense.

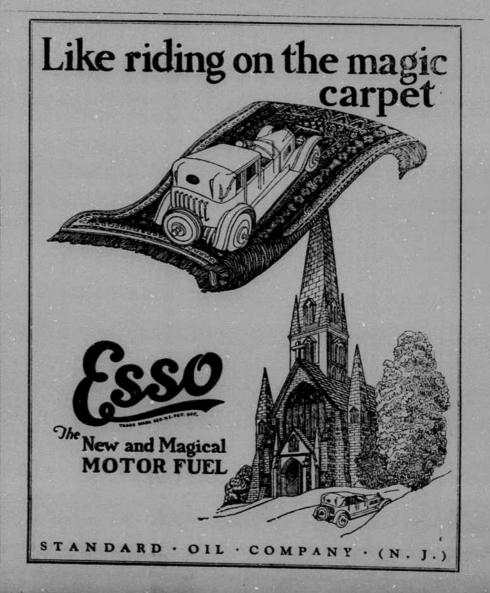

The First National Bank of Marshall, Mich., writes: "Mr. Brooks has been in business here for twenty years. You will make no mistake when you recommend him to your readers as worthy of the fullest confidence, both financially

and personally."

Mr. Brooks states that there are as many different stamps which are similar in appearance he cannot quote value from written descriptions, but must see the envelopes. There are, for example ten different Confederate government stamps bearing the portrait of Jeffersor Davis, and many local stamps as stamped envelopes are very much the same in appearance. The same is true of U. S. issues, the heads of Washing ton or Franklin being used on different stamps. Mr. Brooks does not huy loos stampe, stamp collections, coins or Confederate money. Stamps should not be cut from the envelopes and no date written on. He is fully acquainted will all issues even though the postmarimay show no year date. Those especially wanted are Confederate issues but he also buys U. S. Canadian Hawaiian, and certain foreign stamp provided they are on the original envelopes and mailed not later than 1865. If envelopes are sent in a bunch they should be carefully packed in eardboard box to protect them fron damage while in the mails. If you have reason to believe your envelopes are ospecial value send them by registere or insured mail. If you have no obletters written during or before the Civil War, show this notice to you friends—especially those whose families have fived in the same tronge for everal generations. Many old families have fived in the Same tronge for everal generations. Many old families have fived in the Same tronge for everal generations. Many old families

HAROLD C. BROOKS, Box 223, Marshall, Mich.

Keeping up with the South

THE growth of the South in recent years is one of the outstanding developments of the nation. It is seen by the following facts:

In the 15-year pariod, 1930-1925, the coal mined in the states of the South served by the Southern Railway System has increased 65 per cent; the pig into production increased 15 per cent; and the total value of mineral production increased 255 per cent; and the total value of mineral production increased 205 per cent.

In the two decades, 1900-1920, the value of farm property in these states increased from approximately \$2,500,000,000 to more than \$10,000,000,000.

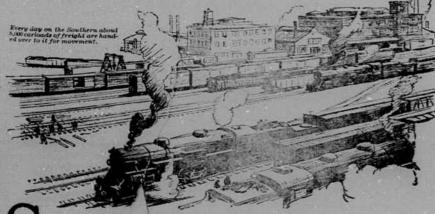

And in the 20-year period, 1904-1923, the value of all manufactures produced in these states increased from about \$1,200,000,000 to almost \$5,000,000,000.

Such has been the growth of the South. The growth of the Southern Railway System in the same period also is impressive.

> In the last twenty-five years the total investment in the Southern Railway System has increased about \$375,000,000—from \$400,000,-000 in 1900 to \$775,000,000 in 1975.

> The total freight truffic handled by the Southern has increased about 250 per cent.

The ability of the Southern Railway System to supply adequate transportation to the growing South has been a vital factor in the healthy economic development of the states served by the Southern.

So
