

THINGS THAT MAKE YOU SORE

By A. B. CHAPIN

No Laughing Matter

Lita Grey Chaplin (above) and her famous comedian husband are at marital odds. Suits and counter suits over money and the custody of their two children have taken the smile from Charlie's face. Mr. Chaplin suffered a nervous collapse while in New York.

Farmers generally readjust their systems of farming too late to profit by the trend of things. The mistake shouldn't be made this year in view of the present cotton and tobacco situation.

The Time to Correct Suffering is Now!

Charlotte, N. C.—"I got so all rundown that it was an effort for me to get around. I had a weak back and severe pains thru my sides. I was not much good for anything. Thru the advice of a friend I took Dr. Pierce's Favorite Prescription and it relieved me of all my feminine trouble, strengthened my nerves and I grew well and strong. Have never had any return of the trouble. 'Favorite Prescription' is surely a grand medicine for women to take."—Mrs. Julia Davis, 511 W. Trade St.

How Doctors Treat Colds and the Flu

To break up a cold overnight or to cut short an attack of grippe, influenza, sore throat or tonsillitis, physicians and druggists are now recommending Calotabs, the purified and refined calomel compound tablet that gives you the effects of calomel and salts combined, without the unpleasant effects of either.

One or two Calotabs at bed-time with a swallow of water,—that's all. No salts, no nausea nor the slightest interference with your eating, work or pleasure. Next morning your cold has vanished, your system is thoroughly purified and you are feeling fine with a hearty appetite for breakfast. Eat what you please,—no danger.

THAT HOLE IN THE FARM POCKET

TIME TO QUIT "BLOWING IN" OUR HARD-EARNED MONEY FOR BOUGHT FOOD.

Atlanta, Ga.—(Special).—"There is a great big hole in the South's farm pocket that lets out our farm money as fast as it comes in," said H. G. Hastings, recognized farm authority, and President of the Georgia Association, a state-wide development organization that has for its major object the betterment of farm conditions.

"So far as we know, no other farm section or country in the world has ever been able to stand such an enormous and steady drain of its money life-blood for food and grain as has the South, without complete farm bankruptcy and collapse for the last fifty or sixty years.

Our farm pockets have had just as big holes at the bottom as they have had at the top, so to speak. As fast as our money for cotton, or other cash crop, went in at the top of the pocket, just so fast did it slip through that hole at the bottom for bread and meat and grain.

A lot of our good folks are looking to Washington for government help, which probably won't come. No use to look that far away. The source of most of our trouble is right at home. It's the empty corn crib and oat bin, the empty hog pen and smoke-house, the lack of hay and forage in barn or stack, milking tin cans of condensed milk instead of a good cow; few eggs, few chickens, and eating New Jersey, Michigan or California grown vegetables and fruits via the tin can route instead of from the home orchard and gardens.

Some food items we necessarily must buy, coffee, salt, sugar, etc., but there is absolutely no sense in the way we do on this food question. It's so foolish and unnecessary, this "paper bag farming," as someone called it. Some of our farm folks are more guilty than others on this particular brand of poverty-producing foolishness, but every one of us is guilty in greater or less degree.

Diversified farm operations, at least to the full extent of home needs from home acres, is the first step away from present bad farm conditions to permanent farm prosperity. Reverse the present way of taking the wagon or truck or automobile to town empty and bringing it back full. Town is the place for you to sell food items instead of the place to buy most of them.

Grain, meat, hay and forage from home acres, fresh vegetables and fruit from your garden and orchard or in cans on closet shelves pay no long line of wholesale and retail profits and railroad freight rates. Every farmer in the South has his and his family's salvation in his own hands this spring—Sew up that hole in the farm pocket beginning now.
