accompanied by her father-in-law, returned Saturday from a visit with relatives in Thomasville.

Mr. Frank Walsh left Saturday for Chapel Hill where he entered college.

**Fastest Four in America Proves Its Claim to Title . . .**

*Dodge Averages 67.35 miles per hour in Beating All Other Fours in Atlantic City A. A. A. Race*

The Atlantic City (N.J.) Speedway Association, without Dodge Brothers instigation or knowledge, bought a Dodge Brothers Four and entered it in a Labor Day race for Four cylinder stock cars. Four cars of other makes also competed. All were strictly stock cars as required by the rules of the association.

The race was for 25 miles—to determine which was "The Fastest Four in America."

The Dodge won. Its average speed for the entire race, from a standing start, was 67.35 miles per hour (officially timed by A. A. A.)

Generous confirmation, to say the least, of the modest claim of "Mile-a-minute Performance!"

Even more remarkable than the speed, however, is the fact that the car had been driven only 10 days and yet was able to withstand this difficult test without once stopping.

Thus the race not only offers conclusive proof of the Dodge's superiority in speed, but stands also as a glowing tribute to the rugged materials and excellent workmanship that go to make it—
