"I would become dizzy. My head would ache terribly, feeling as if it would almost burst. It felt exactly like a tight band was being drawn closer and closer around my temples.

"My stomach would be so upset I could not retain any kind of nourishment for hours. I would have to quit work and go to bed.

"My color was awful. I was yellow and my skin was drawn and dry. I did not have any energy—no ambition to work. I was just about half sick most of the time because of these spells.

"One day one of my neighbors, who has used Theford's Black-Draught for years, said he had noticed how bad my color was and thought it would help me.

"I got some Black-Draught immediately and began to take it regularly until I got my system clear of the poison I had been absorbing. I soon began to feel better and developed a fine appetite. I had no more bad headaches or bilious spells."
