"What's the idea of going in the snow barefoot? You'll catch a heluva cold."

"I'll tell you. I'm going right home and kiss the maid and she'll get the cold. Pa will kiss the maid and he'll get the cold. Then pa will kiss ma and she'll get the cold and tomorrow the preacher will come over and he'll catch the cold—and he's the son-of-a-gun I'm after."

*The new Buick is the new Style*

Men and women on every street-- in every city and town-- are pronouncing the new BUICK with Masterpiece Bodies by Fisher, the most beautiful automobile of the day--

Never before in the history of motor car manufacture have the motorists of America welcomed any new automobile as they are welcoming the Silver Anniversary Buick with new Masterpiece Bodies by Fisher!

Sweeping into the market at a time when motor car lines were practically standardized--when imitation was destroying individuality--these epic Buick creations introduced an entirely new mode--

A mode of body-symmetry--of size and magnificence--of soft contours instead of straight

lines--of embossed side and hood panels involving the most costly steel paneling work employed on any car in the world!

And as the weeks have passed--and the full significance of Buick's achievement has become apparent to the public--enthusiasm for this car has swelled and grown to unprecedented proportions!

Buick sales records have been broken! Production schedules have been increased again and again! The great Buick plants are working to the limit of their capacity to supply the demand.
