Changes Made In Fishing Regulations By State Board

A shorter closed season which will permit fishermen to indulge in their favorite sport on Easter Monday and uniform closed seasons on fishing to make possible a more effective protection of fish during the spawning period are important features of changes recently made by the Board of Conservation and Development at its semi-annual meeting at Morehead City.

Under the new regulations, the closed season on fishing will not begin until May 1 instead of April 20, as has been the law previously. This closed season applies to all species of game fish except the trouts of Western North Carolina whose spawning season comes during a different period of the year. The period of the year in which these types of fish are protected extends from September 1 to April 15 of the following year.

The general closed season will extend from May 1 to June 10, giving a 40-day protected period in the future in place of 50 days heretofore.

Another new regulation also prohibits the taking of fresh water fish in commercial waters during the time that the season is closed in inland waters.

Seining will continue under the ban in inland waters following action of the board in denying requests that special permits be granted for this privilege in certain counties of the State. The board took the viewpoint that as a wholesale method of taking fish, seining is unfair to the great masses of fishermen whose opportunity for sport would be spoiled when waters are depleted by those who would exercise the privilege if seining were permitted.

Collections from angler's license this season are said by officials to be well ahead of last year, having reached approximately \$30,000.00. The State law requires that every person who fishes in any other except his home county must take out a State license.

Bees Often Fly Eight Miles For Honey Load

Confirming the honeybee's reputation for diligence, the United States Department of Agriculture recently learned that a bee will sometimes fly as much as 8 miles and return with its minute load. Under such circumstances a single pound of honey would represent approximately 18,000 trips of 16 miles each, or nearly 300,000 miles of flight by bees.

In a locality in Wyoming where irrigated alfalfa is virtually the only source of honey, the department placed some hives 8 miles from the nearest nectar supply. The bees made daily trips to the alfalfa, loaded with honey, and returned. Since the bees flew this distance regularly, the department agriculturists assume they might fly even farther if necessary.

Flying these 16 mile trips, however, some bees fail to return home because sand storms overtake them or headwinds impede them. Laden with honey, they are forced to rest often on the way home, particularly when flying into the wind or in cool weather. When they reach the hive after such long trips they often make abnormal landings, and frequently fail to alight at the entrance of the hive.

"Mamma, if I get married when I grow up, will I have a husband like papa?"

The mother answered with a smile: "Why yes, dear, if you get married you will have a husband like papa."

The little brow clouded. Then she asked: "If I don't get married, will I be an old maid like aunt Nellie?"

"Yes, dear, you would be an old maid," answered the mother, laughing at this rather complex question; "but whatever put such thoughts into your little head?"

But the child didn't laugh; she only looked grave, and said dejectedly:

"Well, no matter which way we go, it's a pretty tough world for us women, ain't it?"

S. S. Association Met In Andrews

On last Sunday afternoon the Western North Carolina Sunday School Association held its monthly meeting at the First Baptist church here, with W. A. Adams, president, presiding. The devotional was conducted by Rev. R. W. Prevost, pastor of the First Baptist church here.

During the business session of the meeting, plans were made for the Sunday School revival, which will be held in the Western North Carolina and West Liberty Association, beginning August 2nd and closing August 10th. Plans were made to enlist all the churches in this Association in this campaign. The First Baptist Church, here offered to pay half the expenses of two workers to any two churches in the Association who felt they could not meet the small expense attached in securing these workers. Mr. Prevost will teach "The True Function of the Sunday School" during the next week here.

Many of the churches in these two

Associations have already asked for workers, which our State Baptist Board will send here for this week. Mr. Adams, president of the Association, stated that he expected many more to ask for workers before the week ended. These workers will arrive in Murphy on next Sunday, from the Haywood Association, where they have been asked for the past week, teaching there. On next Sunday afternoon, these workers, with all the pastors, Sunday School Superintendents, and others interested in this work, will meet in Murphy and workers will be sent to the different churches where they will work during the week.

Typical Russian Soups

The Russian national soup is called or stchee. It is more of a stew than a soup. It contains sausage, cabbage and onions, all of which are fried before the stock is added. It is often flavored with tarragon vinegar. Other soups typically Russian are those containing beets in some form.

When A CLEANSING MEDICINE Is Needed

"I HAVE taken Black-Draught all my life, whenever in need of a medicine for constipation," says Mrs. G. C. Burns, of Bona, Texas. "My mother and father used it in their home for years, and I was raised to think of it as the first thing if I had a headache or was constipated."

"At one time I had indigestion real bad. I was all out of sorts; my skin was sallow, and I had gas pains. After a course of Black-Draught, I got all right. I have given Black-Draught to my children, whenever they needed a medicine of the kind."
