GET THE HABIT—GET A BLESSING

WHY GO TO CHURCH?

HOWARD P. POWELL

Back of every act of the intelligent person there is a reason for that act. Since this is true, there is some reason why thousands of people attend church every Sunday. The fact that more people stay away from church than attend church, is no argument for or against church attendance. Many of the great reforms had their beginning in the heart of some man, or group of men. If the progress of our great country had depended upon the masses and what they have accomplished we would not be among the honored and respected peoples of the world. We owe much to those who have been strong for their convictions in the face of the opposition from the crowd.

A few words from the leading laymen of the country will convince us that the men who are leading the business world are men who have made a place in their lives for the church and its claims. Roger Babson says: "Briefly, the teachings of Jesus demand honesty, courage, loyalty, and generosity. A person filled with these four traits can do nothing but succeed, regardless of his line of endeavor. These are the foundation stones of Christianity, and upon these four corner stones every business man should erect his business if he is to be truly successful." These words from one of America's great business men should be worth our pondering.

Henry Ford has a Bible in every room of his home. During the lifetime of Woodrow Wilson he pledged with him that he would read a chapter in his Bible every day, which pledge he keeps. Mr. Ford says: "I believe in God and in Jesus Christ. I was brought up in the church. I belong to the church. I attend church. I never go to hear a sermon, whether it is by a preacher in a small church or a large one, that I do not get help." Speaking of religion he says, "Religion is like electricity. I do not understand electricity, but I am deeply interested in it. I want to know all I can about it. I see it power and its

results in that light there. I see it turn the wheels of industry. I know that it lights up the dark places of the earth. I know that it warms our hearts and that it makes the world better. I see and admit its effectiveness even though I do not profess to understand it all."

Mr. J. C. Penny says: "My father was both a clergyman and a business man. One of the things about his career that remains with me is just this: the fact that he made no difference between his farm and the church when it came to the matter of his service. He did his best on the farm, and he rendered unto Caesar the things that belong to Caesar—and he became an expert as a Missouri agriculturist."

Following are some reasons why one should go to church:

All the best people in the community are among those who are present for worship at the church.

The best people in the community are in sympathy with the church and its program.

You would not want to have your home in a community where there were no churches.

The church with the faults of its membership is the best organization in the community.

One will find an opportunity in the church to give expression to his or her highest and best ideals.

While the church has her hypocrites, she has no copyright on hypocrisy. There are as many hypocrites outside the church as there are among the church members.

Will you check up on those who stay away from church, and who criticize the church and oppose its program, and see if you want to class yourself with them and their program.

May we expect your cooperation during "Go-To-Church-Month?"
