In the matter of Memorial to Jos-eph Herbert McCall, deceased. To the honorable the Superior Court for Cherokee County:

Your committee appointed at the June term, 1930 of Cherokee County Superior Court to draft resolutions in memoriam of the late Joseph Herbert McCall beg leave to report the following resolutions:

RESOLVED. By the death of Joseph Herbert McCall, the Bar of Cherckee County has lost one of its most beloved members, and bearing unstinted praise to his high qualities of mind and character, the surviving members of his profession wish to make a public expression to his memory. There is a great gap in our body which leaves us with a sense of our own loss, as well as the feeling that the community in which he lived has been deprived of one of its most patriotic and useful citizens.

Born September 27, 1876, the son of William and Kate Conley McCall, he came of families associated with the pioneer settlement and subsequent early education was in the public

the pioneer settlement and subsequent early education was in the public schools of McDwell County, followed by attendance and graduation at Young Harris College, where he received the degree of Bachelor of Science in the year 1907. His training for life was completed by attendance upon the Law School of the University of North Carolina in the years 1908 and 1909, and in August of the latter year he passed the examination required by the Supreme Court and was admitted to the practice of law.

On December 30th, 1907, he was married to Ettie M. Hunt and of his happy married life, one son, William Herbert McCall was born.

Following his admission to the bar, he located for the practice of his profession in Murphy, North Carolina, where he lived to the time of his death on June 8, 1930, beloved and respected by all with whom he came in contact, attaining high standing as a practicioner especially in the trial of criminal causes.

criminal causes.

As a citizen he was an outstanding factor in the improvement of moral and material matters of his county, and his worth won deserved recognition by election as Representative from Cherokee County in the General Assembly of the Session of 1927. Upon the establishment of a County Court in the year 1927, he was elected Solicitor by the Board of Commissioalers of the County, and in the year 1919, he was re-elected to the same position by popular vote. # MEETING OF CATTLE RAISERS TO BE HELD IN CHEROKEE AND CLAY SOON

County Agents R. W. Gray and E.

County Agents R. W. Gray and E. D. Bowditch.

We have been gathering some information for the last several weeks as to the condition apparently facing the beef cattle producers in Western North Carolina. It seems that due to weather conditions many sections where this cattle has been going will not use a large number this year. This is bringing about the situation that we can possibly rectify to some extent.

In this State we have good corn crops and other feed crops in Eastern Carolina and in parts of the Piedmont section. In a meeting of the District Agents with the Marketing Specialists this morning, it was decided that it would be worth a very definite effort on our part to help bring the person who has feed, in contact with the man who has cattle for sale. A letter is being sent out today to all of the agents relative to this matter. It is felt that in order to present this problem in a more specific manner to the Eastern and Piedmont agents that we should have rather definite information as to the number of cattle for sale, their weights, grade and quality. We also feel that at this time of falling prices that a rather definite effort need be made in the counties to prevent a condition coming about such as happened in 1921.

We feel that at this time mature cattle should move. We also feel

Andrews Citizens Are

Notified of Seriousness
Of Water Supply There

Andrews citizens have been warned to be saving with water which comes from the town's water supply. The following notice was given:
"Our citizens are respectfully required and urged to put all plumbing in good condition immediately, and to use no water except when it is actually necessary for domestic purposes while the present drought prevails. Signed, Water Commission, of the Town of Andrews."

While there is water enough for all domestic purposes, it was thought a wise thing for fire protection to ask all citizens to discontinue using water for watering gardens and washing care, etc., until the present drought prevails. There has been scarcely any rain in this section for months, Many farmers are beginning to see a dire need of rain for their crops. The extra cool nights help the growing corn and other plants to some extent.

Quite a few have responded and are sending their copy in, in plenty of time, while there are others who are getting back into the old rut. To accept copy for the paper after 9 A. M. Wednesday imposes a deiay in the paper and a hardship on the ones responsible for its appearance. We believe, that by this time, everyone is famaliar with the new ruling, and in the future, we will positively not accept any copy for the current issue of The Scout, after the time above mentic ad. This appearance we have mentic ad. we feel that at this time mature cattle should move. We also feel that the cull cattle and low grade cattle should move out; that the best of the grades of young well-bred cattle should be kept for further breeding apurposes. We feel that special emphasis should be placed upon the use of pure-bred bulls. With this in mind, it will be well to have a beef cattle what price they want for the different grades, or will take, and to uge these other things in addition.

# WHAT THE COMMUNITY OWES THE CHURCH

sacredness of marriage; the sancitl of the home; the abolishing of war; the brotherhood of man; integrity in

One of the preceeding writers in this series has discussed the subject, "What the Church Means to the Community," and we are to think, briefly, concerning: "What the Community Owes the Church."

First of all, let it be said that the community owes the church its sympathy. If the church is an institution standing for social purity, civic righteousness, moral integrity and the salvaging of sin-ruined lives—if is an institution which acts as a stay against the ravages of vice and crime and lust whose very presence radiates a blessed atmosphere upon all who live within the reach of its influence, then every RIGHT THINK-ING man and woman will be anxious to have it known that his or her sympathy is with that institution. I believe the church is all of this and even more. Some will say, "Not so. The church has lost its influence in my community." Perhaps the church does not have its intended weight in the community. I have never been inside a church which did not stand for the banishment of immorality, the banishment of immorality, the sancitl of the home; the abolishing of war; its battle against the forces of evil then IN GOD'S NAME AND TO PRO-TECT HIS OWN SELF-RESPECT let him take up the sword and join forces with the church. But passive sympathy will not do; lazy, spesmodic service will not do; indifference and negligence will not do; the issues at stake are too great. There can be no neutral ground.

of the home; the abolishing of war; the brotherhood of man; integrity in politics; homesty in business; the relief of the poor; the lifting of the unfortunate; the healing of the sick; the education of the underprivileged; provision in full for the orphan; the salvation of a civilization, heading for its ruin, by the bringing of all men into vital relationship with Jesus Christ and the establishment of the Kingdom of the Prince of Peace. I say, "They do stand for all these." If they fall short of the mark it is because, for the love of sin and self, men have closed their eyes to the fact that the enterprise into which the church of Jesus Christ has entered is the biggest in the world. No man, who knows history, dares challenge this statement: "As the church has prospered so civilization has gone forward by leaps and bounds. When the church has been shunted into the background moral decay has run civilization's clock in the reverse direction." Do you criticize the church?

# In Midst of Sunday School Revival

# Clerk Makes Appeal

Clerk Makes Appeal

David T. Mashburn, clerk of the Association, makes ar urgent appeal to all workers of the different churches to make out their church letters as clear and legible as possible. Do not leave a question unanswered. Incomplete letters make incomplete statistics. The churches this year who gave only fifty cents and one dollar on minutes last year are urged to bring around two dollars this year. Funds are to be brought with the minutes when they are turned over to the clerk. Let all reports from the different committees be typewritten when possible.
