## THE INKLESS PEN

It is a pleasure to write with the INKLESS PEN, as you have simply to DIP IT IN WATER. With one dip you can write 500 words and ever more, which is equivalent to filling a sheet of fool's cap. The nib is of special construction and a peculiar metal. It resists corrosion and lasts for a much longer time than ordinary pens. The writing is a rich violet color, copyable, and is MARVELOUSLY NEAT AND LEGIBLE. This pen is a great curiosity and is extremely useful, as it dispenses entirely with the ink bottle, that in many households contains nothing but a muddy deposit with which it is impossible to write. It is greatly preferred by many to fountain pens, which are always running dry at the wrong time and are not always the success they might be. Moreover, there is nothing to leak, and the pen fits into a holder when not in use. It may be carried in the pocket in any position. Sample 25c. Address STERLING, 603 Union Ave. Knoxville, Tenn. (52-2t)

## SICK HEADACHE From Constipation

HERE is a purely vegetable medicine which has benefited thousands of men, women and children, and which you should try when troubled with constipation, indigestion, or biliousness. Mr. H. H. Rogillo, of Lake Charles, La., writes: "When I let myself get constipated, I feel dull and sluggish and all out of sorts, not equal to my work. When one has this feeling it is time to take something before he feels worse. I certainly have found Black-Draught quick to relieve. I used to have severe sick headaches and suffer a great deal. I found this came from constipation, and that Black-Draught would correct it. That is why I began using THEDFORD'S PEA-18
