

Associated Charities

(Continued from page 1) that the truly worthy and needy may not want for the necessities during the coming winter. The project is a worthy one, and the idea had been conceived and work started upon the same before any mention of a similar movement had been made by the state or national bodies. Be thinking of those old clothes you can spare, and which the other fellow does not have, or the can of canned food, sack of meal, or the quarter. A little help from many is to be preferred to much help from a few, and that is our aim. Mr. Gray's office will be depository for all articles collected, and he is the man for the unfortunate to turn to. To copy from articles often seen in print

lately, "Give, and be glad that you can give!"

CONSERVATION EXPERT IS ON MURPHEY VISIT

W. L. Moore, of the department of conservation and development, Raleigh, was in Murphey last week showing educational pictures of forestry and game in the rural schools. Special attention is being given to the prevention of forest fires. Most of the pictures were made in the western part of the state showing the wild life and forestry conditions, and the importance of reforestation.

The schools visited were: Martin Creek, Crane Creek, Unaka, Grandview, Friendship, Ranger, Peachtree, Rhodo, Junaluska and Marble.

Mr. Moore is being accompanied by D. M. Birchfield, State Game Warden, of Murphey.

"You needn't tell me - I know Camel is the fresh cigarette!"

FRESH

in nature's way

CAMELS are never parched or toasted!

FRESHNESS and flavor in a cigarette trace right back to natural moisture.

If you overheat or process tobacco so harshly as to dry out all natural moisture you drive out freshness and flavor too.

Camel never parches or toasts the fine Turkish and mild Domestic tobaccos it uses—they are naturally smooth, cool, mellow, with natural moisture retained.

That's why the Camel Humidor Pack proves such a blessing to Camel smokers—it brings them a fine cigarette fresh to start with, and fresh to smoke.

If you don't realize what natural moisture means in genuine freshness and flavor, switch to Camels and see.

Try this mild, slow-burning, throat-friendly favorite for just one day—then leave it, if you can!

CAMELS

Made FRESH - Kept FRESH

- Don't remove the moisture-proof wrapping from your package of Camels after you open it. The Camel Humidor Pack is protection against sweat, dust and germs. In offices and homes, even in the dry atmosphere of artificial heat, the Camel Humidor Pack delivers fresh Camels and keeps them right until the last one has been smoked
