# STEEL ALONE IS NOT ENOUGH!

**—neither strong enough, nor safe enough, nor quiet enough for the body of a quality car like CHEVROLET**

**CHEVROLET** Why is it that every 12-cylinder and 16-cylinder car in America has bodies of steel reinforced by hardwood? Why is it that every make of car selling for over \$4000 uses bodies of exactly the same type? Why? For the same reason that Chevrolet uses it exclusively. Because every test and every experiment have definitely proved: **STEEL ALONE IS NOT ENOUGH!**

The trouble with steel alone is that it stands just so much shock and punishment. Steel alone is also inclined to rumble and rattle. **BUT**—when you put the two together—a heavy, staunch steel body over tough, solid hardwood—then the hardwood reinforces the steel—and vice versa! And the result: the strongest, safest type of body, such as Fisher builds for Chevrolet. **CHEVROLET MOTOR CO., DETROIT, MICH.**

All prices f. o. b. Flint, Michigan. Special equipment extra. Low delivered prices and easy G. M. A. C. terms. A General Motors Value.

**\$445 TO \$565**

## DICKEY CHEVROLET COMPANY

MURPHY, N. C.

### DIZZINESS

Relieved by Black-Draught  
I decided to take Theford's Black-Draught, as I had been having bilious spells," writes Mr. Chas. Stevens, of Columbus, Ind. "When I get bilious, I feel sleepy and tired and do not feel like doing my work, and get awfully dizzy. I know then that I had better take something. After I found how good Black-Draught is, that is what I have used. I guess it rids me of the bile, for I feel better—don't feel like I am dropping off to sleep every time I sit down. That to me, is a very bad feeling. Now you can get Black-Draught in the form of a SYRUP, for Children.
