Roosevelt have announced the engagement and approaching marriage of their only daughter, Miss Grace Green Roosevelt, to William McMillan of Baltimore. This exclusive photograph of the betrothed pair was made at the home of Mrs. Walter Dent Wise in Baltimore, mother of the prospective bridegroom, with whom he makes his home. The marriage will take place on March 3, in Christ church, Oyster Bay, N. Y.

Honor Livingstone in South Rhodesia

To Erect Bronze Statue of Noted Explorer.

Washington.-David Livingstone will be honored soon by a bronze statue to be erected in Victoria Falls Park, Southern Rhodesia, beside the great waterfall which he discovered in 1855.

The noted explorer and missionary is depicted with cane in one hand, Bible in the other, and field glasses at his side. The statue will be placed so that it constantly will be bathed with mist and spray from the roaring waterfall below.

Victoria falls is the most famous "Victoria falls is the most famous scenic attraction and one of the most unusual geographical features of the continent of Africa," says a bulletin from the National Geographic society. "Geographers consider it one of the three greatest waterfalls in the world, rivaled only by Ningara in North America and Iguazu in South America. Although a score of other waterfalls excel it in height, Victoria possesses many aspects which at once set it apart.

once set it apart.

Lacks Majesty of Niagara.

"From immemorial times an atmosphere of mystery and superstition has hung over these African falls. Livingstone had the greatest difficulty in persuading his followers to accompany him, as they believed the region to be the home of monsters and devils of destruction. Vestiges of these traditions still exist, although the Capeto-Cairo railroad, which crosses the river less than half a mile below the falls, is rapidly dispelling them.

"Notwithstanding the magnitude of Victoria falls, the first view of them is disappointing. Although they are nearly a mile in width and 400 feet in height, the grandeur of their propor-

nearly a mile in width and 400 feet in height, the grandeur of their proportions is eclipsed by the sudden disappearance of the river, as it plunges into a narrow, rocky fissure extending across its entire width. Only at a single central point is there a breach in this fissure through which the falls can be seen and appreciated in their full proportions, where the converging waters rush madly to the zigzag canyon below.

"So restricted is this view that there is an entire absence of that awelnspiring and almost paralyzing effect

Right of Teacher to Paddle Upheld

Then schoolmates also testified, John was said to have become involved in a fight when he attempted to separate two other youths

"The bridge of the Cape-to-Cairo railroad is the favorite point selected by artists, as the picture through the narrow gap at Danger Point exhibits the full extent of the angry waters as they leap from the precipices to

the abyss below.
"There is a hotel near the railway. From its verandas an observer can behold a magnificent panorama of the canyon and Batoka gorge. A walk of half a mile brings one to the 'place where the rain is born,' as the na-tives call the Rain forest. This is a phenomenon of rare beauty and in-terest, especially to the botanist, for here the tropic heat and constantly falling spray produce a wealth of vegetation of wonderful luxuriance and variety.
"But the most thrilling scene is

from the eastern extremity of the Rain forest at Danger point, where the treacherous vines and grasses, clinging to the rocks with hungry, desperate roots, tempt one to the very verge of the precipitate cliffs that seem to tremble with the terrific shock of the cataract. So dense here at times is the mass of vapor hurled from the seething cauldron that the sun's rays can no longer penetrate it, and complete darkness envelops one as he is deluged by the downpour, while the terrific thunder of the falls drowns all other sounds and makes his own voice inaudible."

Only One Failure Laid to Scotland Yard

unique schemes of reorganization.

The year saw the beginning of what will prove to be a complete reorganization of the whole Scotland Yard's administration. But what has been of more interna-

tional importance is its initiation of plans for closer co-operation between the detective forces of the Yard and its continental neighbors.

For the first time in history Scotland Yard officers flew to Amsterdam to meet and co-operate with officers from Belgium, France and Germany, and in so doing brought to justice a clever gang of international thieves.

The success of the idea was not confined to forgers. The whole rami-fication of international crime was discussed, and a "working arrangement," in code, of course, was established, which provides the different police forces with a complete itinerary of international jewel thieves.

Throughout the year there were 21 murders 15 of them comprise in the

murders, 15 of them occurring in the first half of the year.

Eleven other cases were those of murder and suicide. The remainder were mainly the murders of children, which aroused intense public feeling. On one or two occasions during the

year gunmen made their appearance, but their careers were brief and their sentences long, one receiving 14 years' penal servitude for shooting at a po-

Much of World's Gold Utilized in Industry

Only about half of the world's gold production since the discovery of America can now be definitely lo-cated, says the director of the Unit-

cated, says the director of the Chic-ed States mint.

Since 1492 the world has mined 822,413,757,117, as officially reported.

Of this, about 80 per cent was produced since 1860. But today the world's nations hold, as monetary gold stock, only about \$11,940,000.

What, you ask, has become of the rest of it? Where are the missing ten billions or more? It went, much of it, just as in olden times. In 1931, for instance, of, roughly, \$49,000,000 of gold mined in the United States alone, about \$29,000,000 was con-sumed in industry.—Frederick Sim-pich in the National Geographic

Face Full of Pimples Could Not Go

Anywhere **Healed by Cuticura**

"My face was full of hard, red pimples. My skin was very sore and red and I could not go anywhere without everybody looking at me. The pimples were very itchy and I scratched them until they bled. I lost my night's sleep so many times I was discussed.

I was disgusted.

"I tried different things, but without success. I happened to see an advertisement for Cuticura Soap and Ointment and sent for a free sample. I bought more and after I had used three cakes of Cuticura Soap and two boxes of Cuticura Soap and two boxes of Cuticura Ointment my face was completely healed."
