**The People's Candidate FOR United States Congress**

Whenever and wherever the Democratic Party does not stand for the people, I stand with the people. Party politics should never take precedence over the interests of the people. Every legislative act at the constitutional disposal of a humane government should be enacted as permanent policy to ensure to every willing worker a place of employment at a recompense that will let him have the decencies and moderate comforts of life.

It has been my experience among men that more than anything else the average man wants decent employment at a livable wage. The people of America are a grateful people, but they have forgotten the actual facts of the veterans' case. When the people are given all the facts, the veteran will get justice.

I believe the average farmer knows more about farming than the average legislator. I believe there is no bolder form of taxation without representation than the passage of important farm legislation without first obtaining the sanction and consent of the man who tills the soil.

Let us vote an honorable annuity for all persons over sixty who are dependent on the whims of fickle charity for uncertain and questionable comfort.

It takes too long to put a crook in jail, and it is too easy for him to get out.

Poor men have had their homes and their farms taken away from them for back taxes, while financial barons have set up ways and means for avoiding all their responsibility to our government.
