Carolina "Corn" Defined By Cobb

Irvin S. Cobb, the famous Kentucky writer and humorist who once said all North Carolina needed was a press agent, got into the papers the other day when he gave the distillers' code authority the following definition of Carolina Corn:

"Illicit corn liquor may easily be identified by these: It smells like gangrene starting in a mildewed silo; it tastes like the wrath to come; and when you absorb a deep swig of it, you have all the sensations of having swallowed a lighted kerosene lamp.

"A sudden violent jolt of it has been known to stop the victim's watch, snap both his suspenders, and crack his glass eye right across—all in the same motion.

"Personally, I would recommend it only to persons who are headed for the last hiccup and want to get it over with as soon as possible. And if you must drink it, always do so while sitting flat on the floor. Then you don't have so far to fall".

BOX SUPPER

There will be a box supper at Shady Grove Church, January 19. The supper is to get money to cover the church. Everybody is invited to come. Boys bring your money and a girl with a box.

Through CAPITAL KEYHOLES

GOOD STROKE—Governor Ehringhaus made a hit with the Legislature in his biennial message. If the Governor listens to the urgent pleas of friends from all over the State and runs for the Senate against Senator Josiah Bailey, his recommendations for better salaries for teachers and State employees will not hurt his chances.

HOLD 'EM—Lieutenant Governor A. H. Graham is one presiding officer that holds the reins tight on the State Senators. Last session some of the boys didn't like this but it expedited business and the personnel of the present Senate is business like if it is anything.

UNEMPLOYMENT INSURANCE—Former State Senator W. O. Burgin, of Davidson, is confident he will live to see his 1933 bill for a State unemployment plan become law before this session of General Assembly adjourns. Conditions were such in 1933 that the measure had little chance and was withdrawn but the commission, headed by Mr. Burgin, made a study of the situation and Governor Ehringhaus endorsed the plan in his address to the General Assembly.

PRIZES—Perhaps you have wondered why there is always such a scramble among Legislators to get on important committees. The reason is simplicity itself in many instances. The big committees receive delegations from all over the State and members of the groups have many chances to turn a few political tricks. That in future campaigns, especially of a State-wide nature.

DOUGHTON-HOEY—Lines have formed in the General Assembly on the prospective candidates for Governor with the sharpest divisions between the backers of Clyde R. Hoey, of Shelby, and Congressman R. L. Doughton. Backers of Mr. Hoey are expecting an announcement from him at any time and the supporters of the Congressman express confidence that he will run. Lieutenant Governor Graham is playing the game but there is strong opinion that he will be a candidate. There is still some opinion here that Julian Price, Greensboro, will be a candidate.

THREE-WAY RACE—Paul D. Grady, Johnson county, Senator W. G. Clark, Edgecombe, and former State Senator George McNeill, of Fayetteville, are beginning to pull their string in the race for Lieutenant Governor next year. Senator Gady marked up a preliminary victory over Senator Clark when the Johnston man got himself elected president pro tempore of the Senate over the opposition of Senator Carl L. Bailey, of Washington, who was openly backed and nominated by Senator Clark. The defeat of Grady would have been a feather in Clark's cap in the campaign for the second highest political office of the State.

DIVERSION—The fight is on between those who think automobile taxes should be spent on roads and those who would like to use the money for other purposes. Governor Ehringhaus backed the movement against diversion and recommended that holes be filled, bumps smoothed down, shoulders repaired and tolls taken off bridges before the highway tax money (the State's heaviest every) is used for other things.

POWDER KEG—There is an opinion there that the formerly helpful post of chairman of the roads committees in this Legislature many not be so helpful political this session. It is rumored that many bills will be introduced calling for constructions of local roads and controversies will arise between delegations from back home on location of these roads. If the committee decides on these arguments or reports the bills unfavorably the result cannot be calculated to increase popularity of chairmen of the committees.

LOBBISTS—Members of the "Third House," as the Legislature lobbyists are called here, began arriving almost in advance of members of the General Assembly. It has been predicted that representatives of big corporations will not have as much influence with the General Assembly as they have been credited with during past sessions. But the boys are here and are not missing any opportunities to make friends with legislators in the hope of making them see their side of the tax picture.

DRIVERS' LICENSE—Some legislators are of the opinion that Senator Corey's bill to establish a State-wide automobile license law has one week spot. It provides that the State authority in charge of licensing

drivers can waive examination of applicants. It is pointed out that this could be done wholesale and would materially reduce the benefit otherwise derived from examining persons who wish the drive cars in this State.

SALES TAX—Not even the strongest opponents of the sales tax profess to believe it will be repealed this session. Dr. Ralph McDonald, of Forsyth, Representative W. L. Lumpkin, of Franklin, and others say the money can be raised from other sources but they don't believe it will. Although generally identified as an anti-sales tax Representative McDonald is as much concerned about getting a \$22,000,000 appropriations for the public schools.

SCRAMBLE—Gentlemen of the daily press had more than their usual scramble to seats at the inadequate press tables in the House and Senate when the session opened. More papers are represented than ever before and when the argument arose as to who would have the four arm chairs at the Senate table it was settled by seniority. Lieutenant Governor A. H. Graham and Principal Clerk, LeRoy Marin, did the deciding.
