Fourth of July Celebration Plans Made

FLOAT PARADE,
2 BALL GAMES
LEAD PROGRAM

Cherokee Indians Turn-
ing Out To Play
Ball, Sing

Thousands of pleasure-bent citizens, coming from all over Cherokee and neighboring counties, are expected in Murphy Thursday, July 4, to take part in the most gigantic celebration ever staged in this county.

The gala event is being planned through the active cooperation of the outstanding citizens and merchants in this community. All towns in the county are lending their invaluable assistance to make the event a tremendous success and all plans under the direction of Luke Ellis have neared completion.

Outstanding among the days events are the glittering parade of floats at 9 o'clock in the morning and the two ball games—one with Hayesville at 10 o'clock and the other with the Mable bat-busters at 3 o'clock.

Packed with thrills will be the Indian baseball game at 1:45. Those who have witnessed the spectacle agree that it is the roughest and most exciting sport that has ever been played. Twenty-two fighting Braves, playing a rough and tumble game just as they did when baseball was first introduced to the scene of battle.

All of the Cherokee Indian reservation is turning out, it was said, and they will sing their weird songs for the public at 1:30.

The fair grounds, where most of the program will be held, will be fixed for an array of fun-provoking events such as climbing the greasy pole and catching the greasy pig.

A dog parade, under the direction of William P. Payne, will lead off the day's festivities.

Prizes will be awarded to the best floats. Up to press time the following had been entered: Murphy Lions club, Murphy Junior Womans club, Murphy Missionary Society, Murphy fire department and several Murphy merchants. The prizes will be \$7.50, \$5 and \$2.00. A large number from Andrews and other towns will be entered.

According to W. D. Whitaker, cashier of the Citizens Bank and Trust company, and chairman of the committee appointed to make plans for the celebration, Andrews will enter eight floats in the grand floral parade to take place through the main streets of Murphy at 9 o'clock. The following local business firms and clubs have entered floats: Rotary club, Junior Woman's club, American Legion post, Woman's club, Andrews chapter of the United Daughters of the Confederacy, Neil C. Hay, Reece Motor company, and the Andrews theatre.

Andrews theatre. Other floats from Murphy, Marble, and Hayesville will take part in the parade.

EVERY MINUTE IS
VALUABLE UNTIL
VOTE PERIOD ENDS

Each candidate makes her last report Wednesday to Campaign Manager. Saturday's report must be placed in Ballot Box at the Citizens Bank and Trust Company, Murphy, before 5 P. M. If you fail to do this you lose all votes that are in your last report. REMEMBER THIS.

Now is the time to really find out who your real friends are. A 5 year subscription counts 150,000 votes and votes alone will win. No candidate should hesitate to go to her friends for a 5 year subscription as there are so many that are so close, one 5 year subscription may mean a new V-8 Ford.

Think of the wonderful vacation this summer in this outstanding automobile, and please bear in mind as stated early in this paper, that there is no occupation where one can make enough money by only working spare time for six short weeks to buy an automobile like this. Let us state once again, this campaign has been, and will continue to be absolutely on the square, so, with this thought in mind, the Campaign Manager will say—"GO TO IT! KEEP GOING AND GOOD LUCK."

REMEMBER

All reports must be in the Ballot Box at the Citizens Bank and Trust Company, Murphy, Saturday by 5 P. M. Cash only will be counted, at which time the Judges and Campaign Manager will open Ballot Box and check all records. Then some one will be glad they DIDN'T SLOW UP DURING LAST DAYS.

Mrs. A. W. McIver

HALF OF FUNDS
FOR HIAWASSEE
DAM WITHHELD

Officials in Washington
Wire Encouragement
Here

Thrust into disappointment Friday morning by news that an appropriations committee had whacked off half of the \$12,000,000 appropriation for the Hiwassee dam which would be built on a local site, the citizens of Cherokee county this week swamped senators and congressmen in Washington with wires in an effort to have the \$6,000,000 put back in the appropriation.

Up to press time assurances poured into Murphy that Washington officials and Murphy's two representatives Harry P. Cooper and E. B. Norvell, "were doing everything possible", and the outlook before the crucial moment appeared unusually bright.

News Received

The latest news received was a wire to Mayor J. B. Gray from Norvell Wednesday morning which said that Congressman Weaver and Senator Bailey had been contacted and that "everything was very favorable". A wire to the Scout from Senator Reynolds said he was appearing before the appropriations committee Tuesday morning but no word has yet been received as to the outcome.

A senate sub-committee Monday heard strong pleas for including in the TVA appropriation for the fiscal year of 1936 sufficient money to get the proposed Hiwassee dam under construction according to an official report from Washington Tuesday.

Senator Bailey, Senator Reynolds and Representative Weaver appeared before the sub-committee, which is headed by Senator Adams, of Colorado, and urged that the \$6,000,000 item struck from the estimated appropriation by the house appropriation committee, be put back in the bill.

To Cost \$12,000,000

The dam is to cost \$12,000,000 and is being urged by the TVA as essential to carrying out the program and was approved by the budget bureau. The sub-committee reacted favorably to the proposal but (Continued on back page)

Urges Farmers To Plant
Ensilage Corn by July 10

With the announcement that the date for planting ensilage corn will end about July 10, A. Q. Ketner, Cherokee county agent, is urging all farmers who are planning to dig a trench silo this year to get in touch with him at his office in the court house in Murphy that the acreage and dimensions of the silo may be planned.

Under his tutelage more than 25 trench silos were dug in Cherokee county the year past and that many more are expected this year.

The digging of trench silos as a cheap and practical means of feeding beef and milk cattle through the winter has been one of the main objectives of the county agent since he went into office more than a year ago.
