Ye scribe visited the streets of Murphy Wednesday. Everybody was talking about the big dam. Some daub'd, others believed, most of 'em believed thier dreams would come true. Goes to show that when people want a thing bad enough they can get it. Now the chief talk will be whether it will be beneficial or not, whether it will bring prosperity to Cherokee county or whether it will ruin the county. There's always two sides to anything, inside and outside, up side or downside, wrong side or right side. Inasmuch as we have it let's be on the right side and make the thing worth while, in other words lets be boosters. Whether we think money is being wasted or not let's try to get the funnel turned over Cherokee county that some of the wastage might be poured our way. There's a whole lot in it and much depends on the actions of the citizens of this county. This will be one big event for our county.
